

## JAL & Malév Hungarian Airlines Expand Code share Agreement

**Tokyo, October 17, 2006:** Japan Airlines and Malév Hungarian Airlines (MA) have expanded their code share agreement to include from October 29, 2006 daily round trip flights operated by Malév between Amsterdam and Budapest.

The new intra European code share flights provide smooth connections with JAL's daily service between Tokyo (Narita) and Amsterdam (JL411/412), increasing the route options and convenience available to passengers traveling between Japan and Hungary.

Last year, JAL and Malév inaugurated a code sharing agreement, which allowed JAL to place its flight numbers on daily flights operated by the Hungarian national airline between Frankfurt and Budapest. The flights connect with JAL's daily service operating between Tokyo and Frankfurt (JL407/408).

Tickets including this new code share go on sale today, October 17, 2006.

### New Code Share Flights

Route	Flight Number	Depart	Arrive	Aircraft	Class	Operating Airline	Days of Operation
