

JAL to cut International Passenger Fare Fuel Surcharges January 1st

Tokyo, November 16, 2006: Today the JAL Group requested approval from the Japanese Ministry of Land, Infrastructure and Transport (MLIT), to reduce the fuel surcharge placed on all international passenger tickets issued on or after January 1st, 2007.

JAL originally introduced the fuel surcharge on international tickets in February 2005 in response to unprecedented rises in the cost of fuel. Since then continuing fuel cost increases have forced JAL to review the amount of fuel surcharges. The third increase in international surcharges was effective from October 1st of this year.

The reduction has been made possible by the fact that the price of Singapore kerosene has stayed below the benchmark of US\$80.00 per barrel for 30 consecutive working days.

Based on ticket sales in Japan, the new surcharges range from 1,800 yen on a Japan-Korea ticket (down from 2,000 yen) to 16,500 yen on a Japan- Brazil ticket (down from 17,100). The surcharge on a Japan-Europe ticket or a Japan- North America ticket will be 13,000 yen, down from 13,600 yen. (See chart below).

The revised surcharge will be reduced again once the price of Singapore kerosene stays below the benchmark of US\$75.00 per barrel for 30 consecutive working days. The surcharge will be progressively reduced as the price of fuel decreases, and will be cancelled completely when the price of Singapore kerosene stays below the benchmark of US\$40.00 per barrel for 30 consecutive working days.
