⁽¹⁾ EBIT = Profit before Financing and Income tax (Profit before Tax – Finance Income and Expenses)

⁽²⁾ Net Profit = Profit attributable to Owners of Parent (3) EBIT Margin = EBIT/Revenue

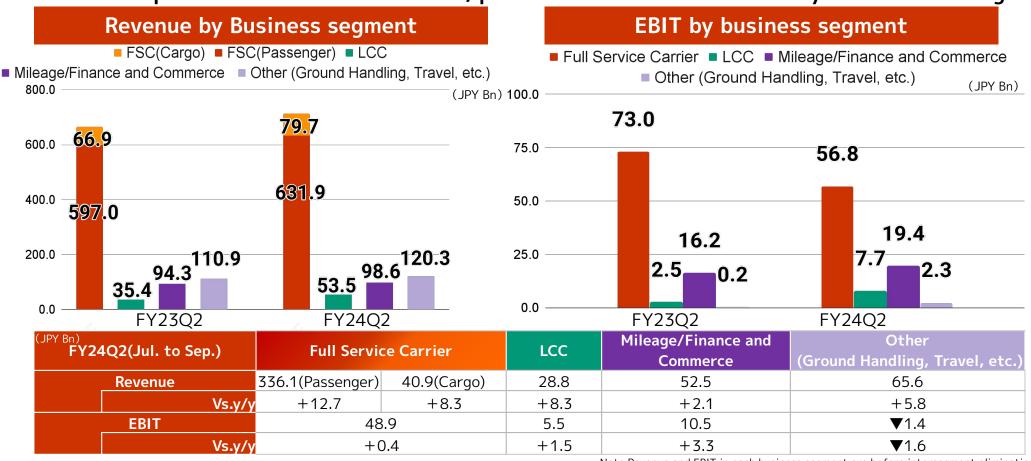

- Our revenue for the first half of the fiscal year ending March 31, 2025 was 901.8 billion yen, an increase of 80.8 billion yen year-on-year, mainly due to international passenger revenues from strong Japan-bound demand and recovering business demand from Japan.
- EBIT was 85.6 billion yen, which is 5.5 billion yen lower than the previous year. Net income was 49.8 billion yen, 11.7 billion yen lower than the previous year.
- Business portfolio reforms continued to make progress from the first quarter.
- Our revenue for the first half and the second quarter itself were the highest since the bankruptcy.
- We will not change the consolidated earnings and dividend forecast for fiscal year 2024. Also the interim dividend has been determined as 40 yen per share as planned.

FY2024Q2 Performance by business segment

Details of financial results for FY2024Q2 Changes in EBIT (Revenues / Expenses)

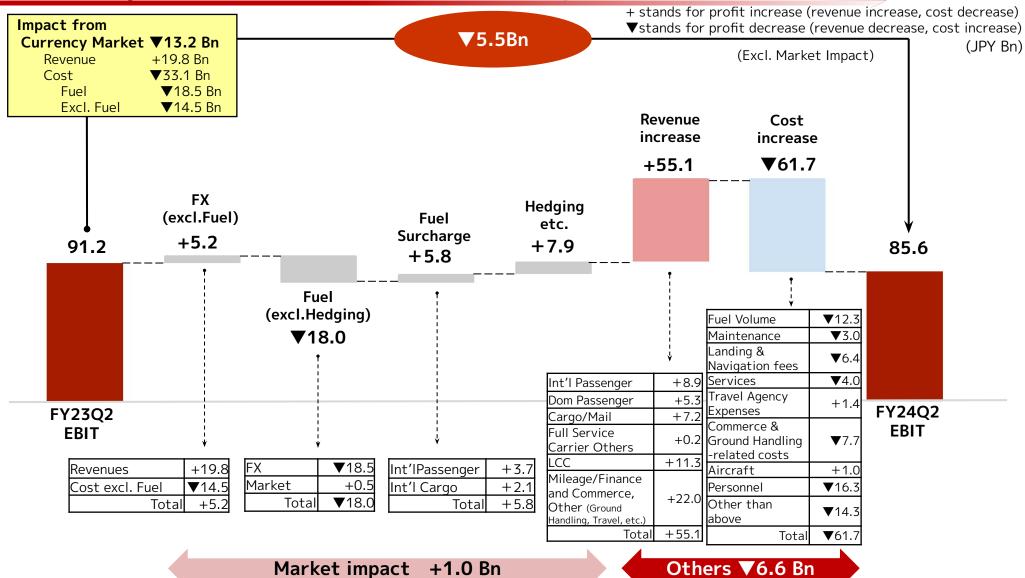

- (1) Mileage/Finance and Commerce, Other (Ground Handling, Travel, etc.) = Travel Agency, Mileage, Commerce, Ground Handling, etc.
- (2) Others = Gain on Sales of Aircraft, Other Income, Share of Profit or Loss of Investment and Income/Expenses from Investment (3) FSC = Fuel Surcharge

- This page shows the factors behind the difference in EBIT from the previous year through revenue and expense.
- Our revenue increased by 80.8 billion yen from the previous year as a result of growth in all business segment.
- As for expenses, weak Yen pushed up our cost, especially Fuel and Maintenance costs.
 Also, personnel expenses increased from the previous year as a result of investment in Human Resources.
- In addition, expenses linked to the scale of operations and the total number of passengers increased in line with the increase in the number of passengers and supply, resulting in the total increase of 87.6 billion yen year on year.
- As a result, EBIT decreased by 5.5 billion yen from the previous year.

Details of financial results for FY2024Q2 Changes in EBIT (Market and other impact)

- This page shows the EBIT difference by dividing it into market impacts and other factors from the previous year.
- Regarding market conditions, while jet fuel prices remained at about the same level as the previous year, the yen depreciated significantly from 138.7 yen last year to 154.0 yen this year. The impact of the FX alone pushed down profits by 13.2 billion yen.
- The impact from FX and the fuel price was offset by fuel surcharges and hedging, which resulted an increase in EBIT by 1.0 billion yen from the previous year.
- Excluding the impact from market conditions, the raise in various expenses and one-time factors such as typhoons resulted in a 6.6 billion yen decrease in EBIT.

Details of financial results for FY2024Q2 International Passenger Operations (Full Service Carrier)

- ✓ 1st half: Pax number grew by outbound business demand and strong inbound demand
- ✓ 2nd half: The recovering high-yield outbound business demand and more inbound demand, especially from South East Asia, will be surely captured
