# JAL Vision 2030

## Chapter 1: Strategic Overview and Management Targets

1-1: Timeline of Medium-term Management Plan  
1-2: Overview of Management Strategy  
1-3: Business Strategy  
1-4: Financial Strategy  
1-5: ESG Strategy  
1-6: Medium-term Management Targets

## Chapter 2: Details of Strategy

2-1: Air Passenger Business  
2-2: Cargo and Mail Business  
2-3: Mileage, Lifestyle and Infrastructure Business  
2-4: Human Resources Strategy  
2-5: Digital / IT Strategy  
2-6: Cost Management  
2-7: CAPEX Plan  
2-8: SDGs Initiatives

### JAL Group Corporate Policy

THE JAL GROUP WILL:
- Pursue the material and intellectual growth of all our employees;
- Deliver unparalleled service to our customers;
- and Increase corporate value and contribute to the betterment of society.
The COVID-19 pandemic has caused unprecedented changes to the foundation of our society and economy and left an enormous impact on various industries, including air transportation.

At the same time, there has been a growing momentum for society-wide efforts to pursue sustainability and achieve true affluence and happiness as represented by initiatives for SDGs.

JAL Group has set the new Medium-term management plan to overcome the crisis amidst the COVID-19 pandemic and attain our grand design “JAL Vision 2030”. All members of the group are now determined to make dedicated efforts for achievement of this vision, driven by the two key themes “Safety and Comfort” and “Sustainability”, amid a time of upheaval with drastic changes in values.

During the period of this Medium-term management plan, we will recover the earnings level as early as possible and achieve growth by pushing forward with restructuring of the business structure based on the premise of rebuilding the financial foundation, as well as accelerating measures to realize a sustainable society through our business activities.

Our goal of this Medium-term management plan is to be “the World's Most Preferred and Valued Airline Group” where people and goods lively move around.
Intentionally Blank
JAL Vision 2030
Ideal image of the JAL Group in 2030

The JAL Group will focus on the key themes of “Safety and Comfort” and “Sustainability” as growth engines; amid a time of upheaval with drastic changes in values toward travel.

Safety and Comfort
Realize a safe, secure, and reliable society in a comfortable environment.

JAL Vision 2030

Sustainability
Realize an affluent society where each one of us can sense and hope for a brighter future.

To become the world’s most preferred and valued airline group, where many people and goods lively move around.
First of all, I would like to talk about JAL Vision 2030.
JAL drives the key themes of “Safety and Comfort” and “Sustainability” as growth engines in the next decade amid a time of upheaval with drastic changes in values.

2021 2022 2023 2024 2025

2030 2050
Target of 60MM inbound tourists to Japan
Expansion of Narita Airport (2029)

*EBIT: Earnings Before Interest and Taxes
This page shows the timeline of our plan.

The plan covers the next 5 years in which JAL recovers from COVID-19 and move forward to realize JAL Vision 2030.

We plan to recover to the pre-COVID level and achieve 170 billion yen EBIT in fiscal year 2023, and aim to achieve approximately 185 billion EBIT in fiscal year 2025, the final year of the medium-term management plan.

Also we set management targets with an aim to achieve JAL Vision 2030 and net-zero CO₂ emission by 2050.
Overview of Management Strategy

Three strategic pillars to achieve “Sustainable Growth and Development” and adapting to changes

Changes Caused by COVID-19 Pandemic

<table>
<thead>
<tr>
<th>JAL / Airline Industry</th>
<th>Market</th>
<th>Society</th>
</tr>
</thead>
<tbody>
<tr>
<td>Severe damage on business</td>
<td>Structural changes in air travel demand and consumer behavior</td>
<td>Growing social awareness for achievement of SDGs</td>
</tr>
<tr>
<td>Air travel demand in 2020: reduced by approx. 70% (yoy)*</td>
<td>vs 2019: Statistics of IATA (International Air Transport Association)</td>
<td></td>
</tr>
</tbody>
</table>

Business Strategy

Restructuring business model addressing changes in market trends and provide a safe and secure travel experience

Finance Strategy

Rebuilding financial foundation and future growth investment; secure shareholder returns

ESG Strategy

ESG management to achieve SDGs through the business model

Three Strategic Pillars
Outline of Restructuring the Business Model

Establishment of a robust and sustainable business structure

Changes in market trends during COVID-19

Structural Changes in Air Travel Demand

- Delayed recovery of business demand
- Solid recovery of leisure and VFR demand

Changes in Consumer Behavior

- Growth of EC market
- Growing needs for personalized services

Expanding business domains to address the changing market trends

Full Service Carrier (FSC)

Improve Profitability

- Downsizing fleet, optimizing network, and enhancing product competitiveness/marketing
  - Resumption of highly-profitable international routes
  - Expand use of JAL's flagship aircraft – Airbus A350
  - Global Expansion of JVs in not only Pacific/European routes

Cargo and Mail

Steady Revenue Increase

- Promoting a flexible supply strategy featuring cargo space and alliance tie-ups
  - Full utilization of belly space (incl. LCC)
  - Strengthen collaboration with partners to expand capacity and network
  - Capturing demand for items requiring high transportation quality

Develop New Markets

LCC

- Multi-model strategy in the growing low-yield market
  - ZIPAIR: Asia/Hawaii/Pacific routes
  - SPRING JAPAN: Expand areas in China
  - Jetstar Japan: Capture tourism demand based in Narita Airport to act as a hub

Expand into Growing Fields

- Expanding business domains leveraging robust customer base and human skills
  - Mileage/financial/merchandise services
  - Expansion of market shares in contracted services (Ground Handling/MRO/Cargo)
  - Commercialization of regional revitalization and next-gen air mobility service

Mileage, Lifestyle and Infrastructure

- Mileage/merchandise/communities/airport handling, maintenance and cargo contracted services/air mobility, etc.
From this page, I will explain the business strategy.

COVID-19 has changed air travel demands and consumer behaviors, drastically affecting the market trends.

JAL will drive structural restructuring to address the changing market trends and to establish robust and sustainable business structure.

We improve the profitability of Full Service Career business and intend steady revenue increase in Cargo and Mail business.

Also, we develop the LCC market where demand growth is expected, and expand into new business domains such as Mileage, leveraging our strengths in customer base and human skills.
Change of Business Structure and Profit Growth

Recovery to pre-COVID profit level through restructuring and return to growth

**Change of Business Structure**

**FY2019 Revenue Breakdown**

<table>
<thead>
<tr>
<th>Category</th>
<th>Percentage</th>
<th>2019</th>
<th>2023</th>
</tr>
</thead>
<tbody>

<td>3</td>
</tr>
</tbody>
</table>

**FY2025 Illustrative Revenue Breakdown**

1. Promote structural restructuring for growth in LCC and Mileage, Lifestyle and Infrastructure
2. Steady recovery from COVID-19 in both FSC and LCC model and optimize business portfolio
3. Increase revenue steadily in the Cargo and Mail domain

*FSC* : Full Service Carrier

**Path to Profit Growth**

EBIT: [JPY Bn]

- Actual EBIT (IFRS) 89
- Recovery from COVID-19 43
- FSC/Cargo 12
- LCC 10
- Network Expansion 16
- Expansion of Business Domains 170
- Profit growth in each domain c. 185

FY2019 Recovery FSC/Cargo LCC Mileage etc. 2023 2025
I will explain the planned change of our business structure and the path to profit growth.

As the demand structure is changing, we plan to grow in LCC and non-air passenger businesses such as Mileage, while relying less on Full Service Carrier business.

The lower part shows the path to profit growth in fiscal year 2023 and 2025.

From 89 billion yen EBIT recorded in fiscal year 2019 as our starting point, we increase EBIT to 170 billion yen in fiscal year 2023, as recovery from COVID-19 impacts, improving profitability in Full Service Carrier business, growing Cargo revenue, in addition, by LCC business and non-air passenger business domains.

When we achieve this profit target, EPS gets back to the pre-COVID level.

In fiscal year 2025, we achieve further growth and plan to reach approximately 185 billion yen EBIT.
Measures to Secure Safety
Contribute to a safe and secure society and act as an industry leader

Most Advanced Safety Measures Utilizing Digital Technologies

Safety Measures in Operation
- Safety of Flights and Aircraft
  - System to prevent turbulence
  - Prognostics combining maintenance expertise and new technologies (AI/data analytics, etc.)

Security Check and Response to Environmental Changes
- Advanced security inspection devices
- Safety management in the air mobility domain

Prevention of Infectious Disease
- Touchless Operations and Social Distancing
  - JAL SMART AIRPORT
  - Utilization of digital certification for safety and comfort of travel

Human Resources for Safety Management
- “Safety First”
  - Expanding safety education to learn from past accidents based on the three actuals “the actual place, object and people”
  - Expanding support programs that enable employees to discuss various concerns, including mental and physical health, and promoting the creation of an environment in which employees can concentrate on safety
Measures to Offer Comfort

Creating a new customer experience in air travel and on the ground

Safety and Basic Quality

Air Travel

Best-in-class In-flight Services
In-flight comfort in the state-of-the-art cabin of A350-1000

Personal Concierge
Human services and digital communication tailored for each customer

Expansion of Opportunities to Use Mileage
Greater opportunities to “use” and “accumulate” miles by increasing JMB partners

Services in Financial and Commerce Fields
New business development leveraging the customer base and mileage program

Daily Life

Address Diverse Needs
Choices suitable for diversification of market utilizing LCC, alliances and business jet, etc.

Expansion of JAL SMART AIRPORT & Mobile Communications
Offer airport and in-flight services on personal devices

Goods and Services for SDGs
Choice of services leading to the reduction of food loss, contributing towards regional revitalization with new services and improved accessibility to promote universal travel

Collaboration with Communities/MaaS
Creation of new styles of travel
Expansion of sales local specialty products
Seamless cooperation with other transportation modes, etc.

Offer personalized values through digitalization and build relationships with people and regions

Providing “Tailored Comfort” to each customer in every situation

Human Resources × Technology × Partnership
## Rebuilding the Financial Foundation

Greater risk tolerance and higher capital efficiency for strategic allocation of resources

### FY2021～2023

<table>
<thead>
<tr>
<th>Enhancement of Risk Tolerance and Capital Efficiency</th>
<th>FY2021～2023</th>
<th>FY2024～2025</th>
</tr>
</thead>
<tbody>
<tr>
<td>Liquidity</td>
<td>Secure the amount of 5.0~5.6 months worth of passenger revenue (incl. credit facility)</td>
<td>Maintain the same level</td>

<th>Total return</th>
<th>FY2021～2023</th>
<th>FY2024～2025</th>
</tr>
</thead>
<tbody>
<tr>
<td>Flexibly consider buyback</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

\(^*1\): Return on Invested Capital = EBIT (after tax) /Average fixed assets at the beginning and end of a fiscal year\(^*2\)

\(^*2\): Fixed assets = Inventory assets + Non-current assets − Deferred tax assets − Net defined benefit asset
On this page, I will explain the overview of our financial strategy.

In the first three years, we will focus on rebuilding the financial base and we will get back healthy financial position by fiscal year 2023.

Then, in and after fiscal year 2024 we promote investment for sustainable growth and achieve greater risk tolerance and higher capital efficiency with an aim to increase profit and enterprise value.

When it comes to shareholder return, firstly we focus on resuming dividends, followed by flexible buyback, along with rebuilding our financial base.
Growth Investment and Shareholder Return

Basic policy of cash flow allocation

**FY2021～FY2023**

A. Limited investments for rebuilding financial position
B. Recover an appropriate level of liquidity by the end of FY2023

**FY2024～FY2025**

C. Active shareholder return
D. Investment for sustainable growth

Set an appropriate level of liquidity as 5.0～5.6 months of passenger revenues after the COVID-19 pandemic

- Secure liquidity that will enable us to tolerate risks according to the size of passenger revenues subject to potential significant impacts if any event risk occurs
- Secure an appropriate level of cash and deposits considering asset efficiency
Here is the basic policy of management resource allocation and appropriate level of liquidity.

We focus on debt repayment and increase in liquidity with limited investments until fiscal year 2023.

In and after fiscal year 2024, we will focus on active shareholder return and investment for growth with the strong financial base.

Considering risk tolerance including ticket refunding, we set an appropriate level of liquidity as 5.0 to 5.6 months of passenger revenues as of end of every month with using credit facility as well.
ESG Management to Achieve SDGs
Aim to realize a sustainable society through business activities

Promote ESG management to Achieve SDGs
by Specifying 4 Priority Areas, 22 Issues, and c. 180 initiatives to be Addressed

**Environment**
Preserve environment to pass on the precious Earth to the next generation
- Address to climate change, effective use of limited resources, etc.

**People**
Contribute to build a society where everyone demonstrates one’s potential
- Promotion of D&I, improving accessibility, etc.

**Communities**
Contribute to development of regional communities as social infrastructure
- Regional revitalization, etc.

**Governance**
Transparent Management
- Fair Business Practices, etc.

**Business Domains**
- FSC/LCC/Cargo and Mail/Mileage, Lifestyle and Infrastructure

**Assets**
- Human resources/knowledge and experience/aeroplane/airport network/financial base/customer base

**Operational Base**
Target of Net Zero CO₂ Emissions by 2050

Aim to achieve 2050 target to realize an affluent society where each of us can sense and hope for a brighter future.
I will explain the reduction target of CO$_2$ emissions, the most important thing of ESG.

In 2020, we announced the target of net zero CO$_2$ emissions by 2050.

50% of the reduction would be achieved by upgrades to fuel-efficient aircrafts, 5% by reduction in daily operations, and 45% by use of sustainable aviation fuel.
CO₂ Reduction Targets and Initiatives by 2030

Leading the industry in implementing most advanced initiatives in accordance with international frameworks

**FY2025 CO₂ Reduction Target**
- Total emission: below 9.09 million tons (Reduce c. 0.5 million tons)
- Keep the amount of the total emission below the actual amount of FY2019

**FY2030 CO₂ Reduction Target**
- Total emission: below 8.18 million tons (Reduce c. 2 million tons)
- Keep the amount of the total emission below 90% level of the actual amount of FY2019

---

**Upgrades to Fuel-efficient Aircraft**
- FY2030 Emission Reduction c. 60%
  - Steadily introduce Airbus A350 and Boeing-787, more fuel-efficient models
  - Coordinate with aircraft manufacturers to promote R&D of electrified/hydrogen-fueled aircrafts

**Reduction of CO₂ Emissions in Daily Operations**
- FY2030 Emission Reduction c. 5%
  - Promote JAL Green Operations (to reduce emissions on a daily basis)
  - Proactive participation in public-private partnership for the next-gen air traffic system

**Use of SAF**
- FY2030 Emission Reduction c.35%
  - Switch to SAF by 10% for FY2030, based on the premise of improvement of the usability
  - In addition to the Fulcrum partnership, build and integrated supply chain of Japan-made SAF

---

- CORSIA*: Carbon Offsetting and Reduction Scheme for International Aviation—under that, airlines operating international flights purchase CO₂ emission credits for any excess CO₂ emissions over their 2019 volume
As the target of CO\textsubscript{2} reduction in fiscal year 2025, JAL aims to reduce the total emission below the actual emission level of fiscal year 2019.

As the fiscal year 2030 target, JAL aims to keep the total emission below 8.18 million tons in accordance with the international frameworks.
### ESG Materiality and KPIs

</tbody>
</table>

*1: Net Promoter Score—objective indicator of customer satisfaction (vs the beginning of FY2021
*2: Increases in passenger numbers by stimulating tourism demand and creating new flows
Here are management goals under the medium-term management plan to be achieved by fiscal year 2025.

JAL sets targets in each area of “Safety and Comfort”, “Financial” and “Sustainability”.

For “Safety and Comfort”, we will never experience aircraft accidents nor serious incidents, and try to provide best-in-class customer experience.

For “Financial”, we will recover to the pre-COVID level in fiscal year 2023 and aim to keep and improve the level going forward. In particular, we focus on EPS to reach to a pre-public offering level.

For “Sustainability”, in addition to CO₂ reduction, we will focus on reduction in plastic use, local transportations which would contribute to regional revitalization, and Diversity & Inclusion development.
1. Strategic Overview and Management Targets

2. Details of Strategy
Air Passenger Business: Overview
Growth with Both FSC/LCC domains addressing changes in market trends

Business Environment

Mid- to Long-term Demand Trend
- Diversification of needs for pricing and services
- Growing demands driven by economic growth in Asia

Structural Changes Under COVID-19 Pandemic
- Decline in business travel following the penetration of web conferences.
- Strong leisure/VFR demand post-COVID era

Strategy of Air Passenger Business
- Revenue growth in the low-yield market for both LCC and FSC models
- Establish comprehensive network for domestic and international routes
- Enhance demand and expand the network through JVs with leading airlines in key areas and align with oneworld partners

Joint Venture Partners
American Airlines / British Airways/ Finnair / Iberia / Malaysia Airlines
In Chapter 2, I will explain strategies of each business domain and here is the overview of Full Service Carrier and LCC.

We acknowledge that there would be changes of demand trends due to COVID-19.

JAL establishes comprehensive networks of domestic and international routes by expanding into LCC in addition to Full Service Carrier.
Air Passenger Business: Full Service Carrier Model

Early restoration of profitability for sustainable growth

Strategies to Improve Profitability

- **To Strengthen Earning Results**
  - **Capture Business Travel Demand**
    - Improving consumer preference with the introduction of the A350 aircraft
    - Expansion of Haneda network featuring routes with high business passenger needs
    - Enhance marketing leveraging joint ventures
  - **Thorough Cost Reduction**
    - Suspending low profitability routes and utilizing codeshare partnerships
    - Early retirement of aging aircraft to curb maintenance cost and introduction new aircraft to curb operational cost

- **Capture Growing Demand**
  - Strengthen Narita as an international hub for Asia-North America transit demand for high yield markets
  - Capture travel demand between metropolitan areas and local regions by “Encouraging regional travel/movement and through workation” and “Attracting inbound tourism”

- **Improve Productivity**
  - Improving operational efficiency through JAL SMART AIRPORT and promotion of DX such as mobile communications

FSC International Passenger

Accelerating retirement of large-sized aircraft to enhance profitability and recover growth

- **Illustrative Revenue Trend**
- **Fleet**
  - 2019 FY2020 2023 2025
  - 2019 FY2020 2023 2025

- **Illustrative Revenue Trend**
- **Fleet**
  - 2019 FY2020 2023 2025
  - 2019 FY2020 2023 2025

FSC Domestic Passenger

Rearrangement of routes and enhanced product to achieve high profitability

- **Illustrative Revenue Trend**
- **Fleet**
  - 2019 FY2020 2023 2025
  - 2019 FY2020 2023 2025

- **Illustrative Revenue Trend**
- **Fleet**
  - 2019 FY2020 2023 2025
  - 2019 FY2020 2023 2025

- **Suspension of Narita-Kaohsiung/Busan routes and phased resumption of international routes**
- **Introduction of A350-1000 to US/EU routes (scheduled in FY2023)**
- **Early retirement of 777 and upgrades to A350-900**
- **Increase in routes to/from Okinawa with solid growth potential (Launch of new routes and introduction of larger aircraft)**

Illustrative Revenue Trend (FSC total)
I will explain the strategy of Full Service Carrier business in this page.

To improve the profitability, we capture business travel demand by, for example, the introduction of A350-1000 into international routes, and create new air travel demand such as transit demand for international flights via Narita, and migration to local regions.

Also, we reform the cost structure by reduction of less profitable routes and early retirement of aged aircrafts, and improve productivity by DX promotion such as SMART AIRPORT.

As a result, we plan to recover our revenue to the pre-COVID level in fiscal year 2025, both for international and for domestic business.
Air Passenger Business: LCC

Revenue growth in the low-yield market with steady recovery and solid growth potential

- Three LCC business models in the low-yield market with distinctive characteristics
  - Creation of demand through high-quality, low-cost operation fully leveraging resources of the JAL Group
  - Strategic network expansion based in Narita Airport as a hub

**First Mid-to-long Haul LCC in Japan**

- Capture demand in global major cities utilizing high-performing 787 aircraft
  - Create low-yield travel demand in Asia, US West Coast, Hawaii, etc.
  - Utilize belly space as a revenue source

- Expansion to 10 aircraft by FY2024
  - Introduce two aircraft per year

**China-focused LCC**

- China-focused operation utilizing small aircraft partnering with Spring Airlines, the largest LCC in China
  - Attract inbound tourists from China leveraging Spring Airlines’ strong brand recognition in China

- Consolidate SPRING JAPAN in June 2021 (scheduled)
  - Achieving high-quality, low-cost operation fully leveraging resources of JAL Group

- Addressing potential travel demand in local cities in China
  - Launch new routes at white spot in China
  - Target cities with population of over 10MM

**Strong LCC Network in the Tokyo Metropolitan Area**

- Drives the growth in domestic LCC market
  - Capture tourism demand, mainly through domestic flights to/from the Tokyo metropolitan area (Narita)
  - Increase revenues under the dual-brand strategy with JAL in domestic flight operation

- Improve profitability through business restructuring
  - Enhance profitability by reviewing the fleet and network, and enhance cargo revenue
  - Partnering with the Qantas/Jetstar Group to strengthen marketing and revenue management
  - Improve fleet utilization rate in short-haul international routes optimizing overnight-parked aircrafts
Here, I will explain the strategy of LCC.

In the low-end market with steady recovery and solid growth potential, we develop three different business models of ZIPAIR, Spring Japan and Jetstar Japan, focusing on their each strength.

ZIPAIR expands into mid-to-long haul international flights with Boeing 787 and will introduce 10 aircrafts by fiscal year 2024.

JAL will consolidate Spring Japan in June to capture inbound demands coordinating with Spring Airlines Group, the largest LCC and travel agent in China.

Jetstar Japan drives the growth in domestic LCC market and focuses on profitability improvement.

Revenue from the three LCCs in fiscal year 2025 would be approximately doubled compared to fiscal year 2019.
Air Passenger Business: Fleet
Renewal of flagship fleet of international/domestic flights to more fuel-efficient models

### Renewal of Flagship Fleet

- **International:** 777-300ER
- **Domestic:** 777-200/300/200ER

777-200ER to be redeployed to domestic flights

#### Fuel Efficiency Improvement
25% vs incumbent aircrafts

#### Interior Renewal to Be More Preferred by Customers

**A350/787 for domestic flights are equipped with personal monitor AC power in all seats.**

*GE-manufactured engine only

(FY2019) (FY2023)
Here is our fleet strategy.

We will promote renewal of flagship fleet with fuel-efficient aircrafts and introduce A350. In particular, we will start introducing A350-1000 into international flights in fiscal year 2023.

The number of large fleet would be decreased due to the planned retirement of aged Boeing 777 while that of medium and small fleet would be increased through LCC business expansion. As a result, the total number of our fleet as of the end of fiscal year 2023 would be 229, increased by 11 from the end of fiscal year 2020.
Cargo and Mail Business

Stable growth addressing customers needs

I will explain the strategy of Cargo and Mail business.

Even under COVID-19, Cargo and Mail business has earned a lot, thanks to stable air cargo demands.

Then, we fully utilize belly spaces of Full Service Carrier and LCC passenger aircrafts and expand capacity and network leveraging collaborations with partners, in order to make supply flexible.

Also, we will approach to new cargo demand such as e-commerce, delivery, healthcare, foods and local specialties.

Revenue in fiscal year 2025 is expected to be increased by 50% compared to fiscal year 2019.
Mileage, Lifestyle and Infrastructure Business: Overview

Monetize business opportunities in promising industry leveraging the strengths of the JAL Group

**Mileage, Lifestyle Domain**
- Increase revenue opportunities by strengthening the relationship with the customer base
  - Mileage
  - Financial Services
  - Merchandise

**Regional Business Domain**
- Evolve into a community-based solution business based on regional revitalization initiatives
  - Travel
  - Sales Channels & Logistics
  - Inbound

**Next-gen Air Mobility Domain**
- Co-develop next-gen transportation and mobility infrastructure with global partners
  - Drone Logistics
  - Flying Car
  - Service Infrastructure

**Contracted Service Domain**
- Maximize technical capability to ensure safe operations, Promoting a business model that supports the needs of the airline industry
  - Airports
  - MRO
  - Cargo

**JAL Group’s Strengths**
- Customer Base/Brand
- Human Skills

**Business**
- FSC
- LCC
- Cargo
- Mileage, etc.
I will explain the overview of non-air passenger business, Mileage, Lifestyle and Infrastructure.

We re-realized the importance of non-air passenger businesses due to COVID-19. Meanwhile, needless to say, synergies with air passenger businesses are also key factors for growth.

We would like to grow in these four domains with revenue potential.

Details are shown in Page 26 to 29, please take a look at these pages later.
Mileage and Lifestyle Domain

Increase revenue opportunities by strengthening the relationship with each customer

- Utilize the JAL Group customer base and mileage program to offer new values to customers’ daily life
- Achieve growth to create new revenue opportunities through extensive partners, strengthen financial services and integrate merchandise operations

**Mileage Business**

- Continue efforts to enhance and differentiate the airline’s business model
- Expand opportunities to “earn” and “use” miles by increasing collaborative partners
- Increase revenue opportunity by creating services accessible during the daily life of a customer

**Financial Service**

- **Payment**
  - Promote cashless payment
  - Increase the number of members of JAL Card / JAL Global Wallet
  - Expand functions of payment via smartphones (IC/QR)

- **Banking**
  - Expand JAL NEOBANK members
  - Offer travel reserves and housing loans

- **Insurance**
  - Insurance products in line with each itinerary

- **Securities**
  - Offer investment services according to the stage of life

**Merchandise**

- Enhance accessibility for users
- Develop and offer proprietary products in collaboration with Regional Domain team

**Mileage and Lifestyle Domain**

- Mileage Business
- Financial Service
- Merchandise

**JAL Group Member Base**

- Mileage
- Lifestyle
- Infrastructure Business

IFRS: excluding revenue transferred to air passenger
Mileage, Lifestyle and Infrastructure Business

Regional Business Domain

Evolve into a community-based solution business based on regional revitalization initiatives

Regional Issues And Needs

How to address declining birthrate and an aging society, population decline, rural exodus and digitalization.

JAL Strengths

- Network
- Creation of the movement of people
- Creation of sales channels and logistics

Regional Resources

- Tourism resources (rich natural environment, cultural heritage, etc.)
- Regional specialty goods
- Wide variety of art and culture

7 Focusing Businesses

Travel (New Tourism)

Creation of continuous movement of people by offering new travel needs

Sales Channels × Logistics

Export and domestic market development of regional specialties

Inbound

Attraction of inbound tourists and support for preparations

Environment

Environment conservation, including support for application for UNESCO World Heritage Site

HR Development

Cultivation of human resources in tourism

Intermodal Transport

Expansion of transportation options to/from airports leveraging air mobility

Healthcare

- Transportation to strengthen community healthcare (utilizing drones)
- Workation for health care workers

Vitalizing flows of goods and people promoted by enhancing connection between regions and people
2-3

Mileage, Lifestyle and Infrastructure Business

Contracted Services Domain (Ground Handling/MRO/Cargo)

Maximize technical capability to ensure safe operations and promote a business model that supports the needs of the airline industry

- Provide peers and public agencies with various services leveraging our facilities/equipment and human skills cultivated in air transportation operations
- Build a solid supply structure in alliance with partners to flexibly respond to changes in demand trends and seek larger shares

<table>
<thead>
<tr>
<th>Ground Handling</th>
<th>MRO</th>
<th>Cargo</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lead the way to a tourism-oriented country by supporting air travel demand</td>
<td>Offer various maintenance and technological services from operation support to equipment services</td>
<td>Provide comprehensive logistics services to meet strong cargo demand</td>
</tr>
<tr>
<td><strong>Expand Market Share</strong></td>
<td><strong>Upgrade Service</strong></td>
<td><strong>Enhance Logistics Service</strong></td>
</tr>
<tr>
<td>• High quality and stable services to meet various demand (certified by ISAGO)</td>
<td>• Operations support including responses to irregular events and provision of parts, equipment and tools</td>
<td>• Extensive contracted services of cargo handling mainly at hub airports in Japan</td>
</tr>
<tr>
<td>• Packaged services including administrative operations</td>
<td>• Maintenance services for engines and landing gears</td>
<td>• Strengthened comprehensive logistics services using cargo shed facilities</td>
</tr>
<tr>
<td>• Airline marketing to global airlines in collaboration with local municipalities</td>
<td>• New businesses leveraging expertise in air transportation (technologies, training programs, logistics, etc.)</td>
<td>• Safety and quality of transportation leveraging technological support</td>
</tr>
</tbody>
</table>

Illustrative Revenue Trend (Domain total)

+1.5%
Next-gen Air Mobility Domain

Develop new businesses with partners to build next-gen transportation/mobility Infrastructure

- Facilitate next-gen air mobility focusing on safety
- Improve transportation convenience and contribute to resolving social issues by drone logistics and eVTOL

### Business Model of Next-gen Air Mobility

- From “drone logistics” (goods) to “flying car” (people), from “local cities” to "major cities"

1. **Next-gen Air Mobility Operational Service Platform**
   - (Organization/Operation system)

   - **Drone Logistics**
     - Commercialization in FY2023
     - (JAL) (Partners)

   - **Flying Car**
     - Commercialization in FY2025
     - (JAL) (Partners)

   - Build “Next-gen Air Mobility Operational Service Platform” by making use of JAL’s strengths such as safety management
   - Commercialization from drone logistics in local cities in cooperation with partners, and accumulate technological capabilities
   - Expand business of flying cars, and gradually expand service areas from “local cities” to “major cities”

### Initiatives for Commercialization and Service Expansion

- **NOW**
  - Initiatives to protect “safety in the air”
    - Participation in regulatory framework design and demonstration test
    - Establishment of human resource development system (Ex.: Pilot training, etc.)
  - Service Model Design
    - Market research and safety evaluation
  - Commercialization and Service Expansion
    - Drone Logistics: FY2023～
    - Flying Car: FY2025～

- Establishment of an act by around 2022
Human Resources Strategy

JAL Group’s full commitment to achieve “Sustainable Growth and Development”

- **JAL Philosophy**
  - *OODA* (Observe, Orient, Decide, Act) - four elements required to respond to changes proactively

- **Amoeba Management System**
  - Health Management

### Foundation of Human Resources Supporting Growth and Development

- Achieving High Productivity with Environmental Changes as an Opportunity
- Deployment of Human Resources to Growing Fields & BU-based Operation

### Achieving High Productivity with Environmental Changes as an Opportunity

- Productivity by capita
  - Headcount

- **Collapse in Demand**
  - FY2019
  - FY2020

- **Demand Rebound and Growth**
  - FY2023
  - FY2025

### Full Utilization of Surplus Workforce / Human Resource Development for Regrowth

- Acquisition of knowledge through education and training
- Secondment to deepen expertise

### Promotion of D&I

- Cross-sectional deployment regardless of job category
- More efficient use of back-office

### Achieving High Productivity

- Utilizing digital technology
- New Normal Workstyle

### Value Maximization of Employee Experience (EX)

- Human resources mainly placed on FSC, being an active role in growing fields
- Achieving growth in non-FSC business domains through independent BUs

### Improving Corporate Value / Sustainable Growth and Development

- JAL Group’s full commitment to achieve “Sustainable Growth and Development”

- **Goal**

- **Value Maximization of Employee Experience (EX)**
- **Improving Corporate Value / Sustainable Growth and Development**
Here is our human resources strategy.

Because human resources are JAL Group’s strength and essential for sustainable growth in the post-COVID, we will definitely do our best to secure employment even in this severe situation.

Today we have temporarily extra people due to COVID-19, so we promote proactive measures such as secondment of thousands of employees and enhancement of educational opportunities.

Also we will expand our business domains with no increase in total employees, by transferring people from Full Service Carrier business to new business domains where further growth is expected.
Digital / IT Strategy

Promote digital transformation integrating human resources and technology to maximize both customer experience and employee experience.

Value Maximization of Customer Experience (CX)

Connect various touchpoints around customers

- **Providing New Customer Experiences**
  - **Personal Concierge**
    - Realization of services and communications based on the understanding of individual needs and situations
    - Seamless service based on MaaS, etc.
  - **Expansion of Mobile Communications**
    - Expanding mobile application support to global markets and connecting to various services
    - Expanding self-service with mobile at airports and in-flight

Value Maximization of Employee Experience (EX)

Connect organizations to encourage autonomous actions for higher productivity

- **Continuous Improvement of Employee Experience**
  - **Diversity and High Productivity**
    - Productivity improvement utilizing AI and RPA (Robotics Process Automation), and human resources are focused on high value-added operations
    - Construction of a high-speed, stable remote/telework environment using 5G, etc.
  - **Safety and Basic Quality**
    - Enhancing operations by integrating operational data
    - Strengthen safety by prognostics combining new technologies, etc.

IT Platform as a Backbone of the Business Strategy

- Accelerate new business through cloud computing
- Enhancing the data infrastructure supporting DX
- Building security for the new normal
- Improving system resilience to various disasters

Digital Transformation (DX)

Intentionally Blank
Cost Management

Flexible variable cost management and fixed cost reduction through structural reforms and further streamlining and productivity improvement

Past Measures

- Thorough structural reforms, followed by disciplined cost management
- Fullest use of the divisional profitability management system for profitability improvement through flexible adjustment of supply and cost reduction

Post-COVID

Flexible and swift adjustment of supply to control variable costs

Reduction of actual fixed costs* to the FY2020 level through structural restructuring and further streamlining and productivity improvement

Illustrative Reduction of Actual Fixed Costs*

Initiatives for Cost Reduction to Offset Cost Increase

- Optimization of the fleet size
- Improve productivity
- More efficient operation with less manpower through adoption of JAL SMART AIRPORT
- Utilization of systems to improve cost efficiency, etc.

*Actual Fixed Cost: (Total Fixed Cost) – (costs that may be variable according to operational size and number of passengers, temporary or additional costs in association with the structural restructuring (early retirement of aged aircrafts, LCC business expansion, etc.))

FY2020 reduction, JPY135Bn from the initial plan (incl. some revenue- and capacity-linked portions)
JAL has been implementing disciplined cost management for more than a decade.

Our actual fixed cost reduction efforts in fiscal year 2020 decreased fixed cost by 60 billion yen compared to fiscal year 2019.

Our actual fixed cost has been reduced to 500 billion yen in fiscal year 2020 and we will maintain this level of actual fixed cost going forward by keeping restructuring reform and productivity improvement.
Finance

2-7

CAPEX Plan
Disciplined growth investment focusing on investment efficiency

FY2017〜2019
JPY220〜230Bn/year
(3-year total: c. JPY700Bn)

FY2021〜2023
5-year total: c. JPY850Bn
C. JPY150Bn/year
(3-year total: c. JPY450Bn)

FY2024〜2025
C. JPY200Bn/year
(2-year total: c. JPY400Bn)

Investments for “development at Haneda and Narita” in FY2020
- Introduction of A350-900 to domestic routes
- Increase in FSC international aircraft
- Renovation of passenger service systems

Targeted investment with restrained size:
- Continuous introduction of A350-900
- LCC business
- DX promotion, JAL SMART AIRPORT

Sustainable growth through:
- Introduction of A350-1000 into international routes
- Expansion of business domains
- Promoting initiatives to achieve SDGs

Consider non-organic growth opportunities depends on the status of cash flows
Lastly, I explain our CAPEX plan for 5 years from now.

Until fiscal year 2023, we will invest approximately 150 billion yen annually on average in introduction of A350, LCC business, IT for contactless and efficient operations, etc.

In and after fiscal year 2024, we will drive proactive investment for sustainable growth with approximately 200 billion yen per year, resulting in the total 5-year investment of approximately 850 billion yen.

In addition, we will consider additional investment to strengthen new business domains, depending on the financial position in the future.

JAL Group will implement this medium-term business plan to become the world’s most preferred and valued airline group.
SDGs Initiatives

All JAL Group employees engage in Initiatives for SDGs and aims to accomplish medium term management plan

Address to Climate Change
- Engine washing
- Lightweight container
- Using SAF
- Flight path optimization

First flight in Japan with domestic SAF in February 2021

Regional Revitalization
- Collaboration
- Workation
- Publicize regional specialty products
- Support for attracting foreign visitors

Promotion of D&I
- Diversity
- Consideration for Gender Neutrality

Continuing activities from 2011 to 10 Years and evolving into a business

Improving Accessibility
- Special assistance counter
- Remote sign language interpreter
- Autonomous wheelchair
- Accessible tourism

Formulation of guidelines based on COVID-19 measures

Prevention of the Spread of Infectious Diseases
- Transportation of medical items
- Non-face-to-face/touchless
- Heightened hygiene standards
- Awards

Certified as the first airline in Asia to receive two awards for COVID-19 safety initiatives.
