Japan Airlines System Corporation

Notes to Consolidated Financial Statements

March 31, 2004 and 2003

1. Summary of Significant Accounting Policies

a. Basis of presentation

Japan Airlines System Corporation (the "Company") and consolidated domestic subsidiaries maintain their accounting records and prepare their financial statements in accordance with accounting principles and practices generally accepted and applied in Japan, and the consolidated foreign subsidiaries in conformity with those of their countries of domicile. Accordingly, the accompanying consolidated financial statements are not intended to present the consolidated financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Japan.

Amounts of less than one million yen have been omitted. As a result, the totals shown in the accompanying consolidated financial statements do not necessarily agree with the sum of the individual amounts.

b. Principles of consolidation and accounting for investments in affiliates

The consolidated financial statements include the accounts of the Company and all significant subsidiaries. All significant intercompany accounts and transactions and unrealized gain or loss on intercompany accounts and transactions have been eliminated.

The balance sheet date of 26 of the consolidated subsidiaries is December 31. Any significant differences in intercompany accounts and transactions arising from intervening intercompany transactions during the period from January 1 through March 31 have been adjusted, if necessary. JLC Insurance Company Limited has changed its balance sheet date from February 28 to December 31 and, thus, its current fiscal year was ten months.

Investments in certain unconsolidated subsidiaries and significant affiliates are accounted for by the equity method. The assets and liabilities of newly consolidated subsidiaries are stated at fair value as of their respective acquisition dates. The differences between the cost and the underlying net equity in the net assets at the dates of acquisition of the consolidated subsidiaries and companies accounted for by the equity method are amortized by the straight-line method over a period of five years.

1. Summary of Significant Accounting Policies (continued)

c. Cash equivalents

The Company and its consolidated subsidiaries define cash equivalents as highly liquid, short-term investments with original maturities of three months or less.

d. Securities

Investments in marketable securities are stated at fair value, and net unrealized gain or loss on such securities is accounted for as a separate component of stockholders' equity. Investments in non-marketable securities are principally stated at cost. Cost of securities sold is principally determined by the moving average method.

e. Derivatives

Derivatives are stated at fair value.

f. Supplies

Supplies are principally stated at cost based on the moving average method.

g. Tangible and intangible fixed assets

| Tangible fixed assets | | |
|---|---|--|
| Aircraft, spare engines and spare parts contained in flight equipment | _ | The straight-line method or the declining- balance method based on their estimated useful lives. |
| Ground property and equipment: | | |
| Japan Airlines Company, Ltd. and Japan Air System Co., Ltd. | _ | The straight-line method |
| Other companies | _ | Principally the declining-balance method |
| Intangible fixed assets | _ | The straight-line method |

h. Deferred charges

Bond issuance expenses are capitalized and are being amortized over a period of 3 years.

i. Accrued pension and severance costs

To provide for employees' severance indemnities, net period pension cost, which represents the amount recognized as the cost of the pension plans for the year, is accounted for based on the projected benefit obligation and the plan assets. The unrecognized obligation at transition is being amortized by the straight-line method principally over a period of fifteen years.

1. Summary of Significant Accounting Policies (continued)

j. Accrued pension and severance costs (continued)

The adjustment for actuarial assumptions is being amortized by straight-line method over a period ranging from 5 to 15 years from the fiscal year following the adjustment, a period which is within the average remaining years of service of the active participants in the plans. Amortization is computed from the fiscal year subsequent to the year in which the adjustment was recorded.

Past service cost is principally charged to income as incurred. However, at certain subsidiaries, past service cost is being amortized by the straight-line method over a period which is less than the average remaining years of service of the active participants in the plans.

k. Allowance for bad debts

The allowance for bad debts on receivables is provided at the estimated unrecoverable amounts. The allowance for other receivables is provided based on the historical rate of losses on receivables.

1. Foreign currency accounts

Foreign currency receivables and payables are translated into yen at the applicable year-end exchange rates and translation gain or loss are included in current earnings.

Translation adjustments arising from the translation of assets, liabilities, revenues and expenses of the consolidated subsidiaries and affiliates accounted for by the equity method are included in minority interests and in stockholders' equity.

m. Leases

As lessee

The Company and its consolidated subsidiaries lease certain equipment under noncancelable lease agreements referred to as capital leases. At the Company and its domestic subsidiaries, capital leases, defined as leases which do not transfer the ownership of the leased property to the lessee, are principally accounted for as operating leases.

As lessor

Certain consolidated subsidiaries lease certain equipment under noncancelable lease agreements referred to as direct financing leases. Direct financing leases, defined as leases which do not transfer the ownership of the leased property to the lessee, are principally accounted for as operating leases.

1. Summary of Significant Accounting Policies (continued)

n. Hedge accounting

Gain or loss on derivatives designated as hedging instruments is deferred until the loss or gain on the underlying hedged item is recognized. Foreign receivables and payables are translated at the applicable forward foreign exchange rates if certain conditions are met. The related interest differential paid or received on interest-rate swaps used as hedging instruments is recognized over the term of each swap agreement as an adjustment to the interest expense of the underlying hedged items if certain conditions are met.

o. Consumption taxes

Transactions subject to consumption taxes are recorded at amounts exclusive of consumption taxes.

p. Income taxes

Effective the year ended March 31, 2004, the Company and certain of its domestic subsidiaries have adopted the Japanese consolidated tax return system.

q. Appropriation of capital surplus and/or retained earnings and disposition of accumulated deficit

Under the Commercial Code of Japan, the appropriation of capital surplus and/or retained earnings and disposition of accumulated deficit with respect to a financial period is made by resolution of the stockholders at a general meeting held subsequent to the close of the financial period and the accounts for that period do not, therefore, reflect such appropriations and disposition.

2. Other Footnote Information

- a. Accumulated depreciation at March 31, 2004 and 2003 amounted to ¥1,632,427 million and ¥1,661,854 million, respectively.
- b. At March 31, 2004 and 2003, contingent liabilities for guarantees amounted to \$17,208 million and \$15,207 million, respectively. In addition, at March 31, 2004 and 2003, contingent liabilities for commitment to guarantees, keep-well agreements and other commitments amounted to \$1,994 million and \$2,133 million, respectively.
- c. At March 31, 2003, a consolidated subsidiary was liable under debt assumption agreements for the in-substance defeasance of certain bonds in the aggregate amount of \$30,000 million.
- d. At March 31, 2004 and 2003, shares of common stock in treasury numbered 18,448,160 and 19,863,126, respectively.

3. Subsequent Events

a. Pursuant to a resolution of the Board of Directors at a meeting held on January 21, 2004, Japan Asia Airways Co., Ltd. ("JAA"), which was previously owned 90.5% by Japan Airlines International Co., Ltd. (formerly Japan Airlines Company, Ltd.), a wholly-owned subsidiary of the Company, became a wholly-owned subsidiary of the Company effective April 1, 2004 by way of a share exchange (*kabushiki-kohkan*). The Company delivered 65,000,000 shares newly issued by the Company and 16,018,600 shares held as treasury stock (for a total of 81,018,600 shares) to the shareholders of JAA in exchange for JAA's shares. Consequently, the Company's shares of common stock in issue numbered 2,045,465,250.

As a result of this share exchange, the amount of common stock remained unchanged, capital surplus increased by \$5,069 million, and common stock in treasury decreased by \$4,474 million.

- b. Pursuant to a resolution of the Board of Directors at a meeting held on March 17, 2004, the Company issued zero coupon guaranteed convertible bonds due 2011 on April 5, 2004.
 - (1) Total amount of the bond issue: ¥100,000 million
 - (2) Coupon: zero
 - (3) Maturity date: March 25, 2011
 - (4) Shares to be issued upon conversion:

Type of shares: common stock

Number of shares to be issued: The number of shares to be issued upon exercise of the stock acquisition rights is equal to the face value of the bonds divided by the conversion price.

- (5) Initial conversion price: ¥440 per share which is subject, under certain circumstances, to adjustment.
- (6) Exercise period of stock acquisition rights: The stock acquisition rights granted under the terms of these bonds may be exercised at any time during the period from, and inclusive of, April 19, 2004 up to the close of business on March 11, 2011 at the location where the stock acquisition rights are exercised.
- c. Effective April 1, 2004, JAL Group has changed its business structure. Under the new business structure, Japan Airlines International Co., Ltd. (formerly Japan Airlines Company, Ltd.) is responsible for the international passenger service and cargo service businesses, and Japan Airlines Domestic Co., Ltd. (formerly Japan Air System Co., Ltd.) is responsible for the domestic passenger service business.

4. Segment Information

a. Business segment information

The Company and its consolidated subsidiaries conduct worldwide operations in air transportation, hotel and resort operations, travel services, card and lease operations, trading and other airline-related business. This segmentation has been determined for internal management purposes.

Until the year ended March 31, 2003, the business segment information was presented in four major categories: the air transportation segment, the travel segment, the hotel and resort operations segment and a segment entitled 'other' which included card and lease operations, trading and other airline-related business.

Effective the year ended March 31, 2004, the Company has revised its method of segmentation. The airline-related business, which had been included in "Other" until the year ended March 31, 2003, has been presented as a new segment since, under the Company's current business strategies, it is a separate function of the air transportation business. In addition, the hotel and resort operations business, which had been presented as a separate segment until the year ended March 31, 2003, has been included in "Other" for the year ended March 31, 2004 since its size has decreased following a change in basic business strategy under which it now operates its businesses under a system of administration contracts.

6. Tax-Effect Accounting (continued)

At March 31, 2003, reflecting a change in the local tax rates, the statutory tax rate utilized in estimating deferred tax assets and liabilities has been applied as follows. The statutory tax rate effective for the year ended March 31, 2004, excluding a surtax for the consolidation tax return system, has been applied to the temporary differences expected to be deducted for tax purposes by the end of March 2004, and the new rate has been applied to those to be utilized after April 2004.

7. Fair Value of Investments in Securities

The components of net unrealized gain (loss) on investments in marketable securities at March 31, 2004 and 2003 are summarized as follows:

8. Derivative and Hedging Activities

Consolidated subsidiaries have utilized forward foreign exchange and options contracts to hedge certain foreign currency transactions related to foreign purchase commitments, principally of flight equipment and foreign accounts receivable and payable, on a consistent basis. The Company and consolidated subsidiaries have also utilized interestrate and/or currency swaps to minimize the impact of foreign exchange and/or interest-rate movements related to their outstanding debt on their operating results. Certain consolidated subsidiaries have also entered into a variety of swaps and options in their management of risk exposure related to the commodity prices of fuel.

Derivatives positions are stated at fair value except that gain or loss on the derivatives designated as hedging instruments is deferred until the loss or gain on the underlying hedged items is recognized.

9. Accrued Pension and Severance Costs

An employee whose employment is terminated is entitled, in most cases, to a lump-sum severance payment, the amount of which is determined by reference to the basic rate of pay, length of service and the conditions under which the termination occurs.

Certain significant domestic subsidiaries have established defined benefit pension plans pursuant to the Welfare Pension Insurance Law of Japan and welfare pension fund plans (WPFP).

| Net unrecognized amount | ¥(377,499) | ¥(348,453) | |

9. Accrued Pension and Severance Costs (continued)

The net unrecognized amount presented above consisted of the following:

| | March 31, | |
|---------------------------------------|-------------------|------------|
| | 2004 | 2003 |
| | (Millions of yen) | |
| Unrecognized obligation at transition | ¥(162,239) | ¥(177,551) |
| Adjustment to actuarial assumptions | (216,246) | (172,417) |
| Unrecognized past service cost | 986 | 1,515 |
| Total | ¥(377,499) | ¥(348,453) |

The substitutional portion of the benefits under the WPFP has been included in the amounts shown in the above table.

On August 13, 2003, a certain domestic subsidiary received approval from the Minister of Health, Labor and Welfare with respect to its application for exemption from the benefit obligation related to future employee services under the substitutional portion of the WPFP. In accordance with paragraph 47-2 of the "Practical Guidelines on Retirement Benefits Accounting (Interim Report)," Report No. 13 of the Accounting System Committee of the Japanese Institute of Certified Public Accountants, the subsidiary accounted for the separation of the substitutional portion of the benefit obligation under its WPFP as of the date of approval of the exemption, assuming that the transfer to the Japanese Government of the substitutional portion of the benefit obligation and related portion of the pension plan assets had been completed as of that date. As a result, the subsidiary recognized a gain of \$755 million for the year ended March 31, 2004. At March 31, 2004, the pension plan assets which are to be transferred were calculated at \$2,343 million.

The components of net periodic pension cost were as follows:

| | For the year en | For the year ended March 31, | |
|---|-------------------|------------------------------|--|
| | 2004 | 2003 | |
| | (Millions of yen) | | |
| Service cost | ¥ 31,421 | ¥ 31,169 | |

| Amortization of past service cost | (126) | (140) | |
| Net periodic pension cost | ¥ 70,093 | ¥ 64,709 | |

9. Accrued Pension and Severance Costs (continued)

The actuarial assumptions used were as follows:

| | For the year ended March 31, | | |
|--|------------------------------|----------------------|--|
| | 2004 | 2003 | |
| | (Millions of yen) | | |
| Method of amortization Discount rates for obligation at end | Straight-line method | Straight-line method | |
| of year | 2.5% ~ 2.8% | 2.5% ~ 3.5% | |
| Expected rates of return on plan assets | 0.0% ~ 5.5% | 0.7% ~ 5.5% | |

The adjustment to the actuarial assumptions is being amortized over a period ranging from 5 to 15 years from the fiscal year following the adjustment, a period which is within the average remaining years of service of the active participants in the plans.

The unrecognized obligation at transition is being amortized principally over 15 years.

Past service cost is principally charged to income in the period when incurred; however, at certain subsidiaries, past service cost is being amortized by the straight-line method over a period which is less than the average remaining years of service of the active participants in the plans.
