I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

We maintain an awareness that our corporate group is a member of society at large with the duty to fulfill our corporate social responsibility and contribute to society as we develop our business, in addition to fulfilling our financial responsibility of earning adequate profits by providing high quality products through fair competition while maintaining flight safety as the leading company of safety in the transport sector and providing the finest service to our customers.

Taking this into account, we have established JAL Philosophy in accordance with the JAL Group Corporate Policy, "JAL Group will pursue the material and intellectual growth of all our employees, deliver unparalleled service to our customers, and increase corporate value and contribute to the betterment of society." We will strive to enhance corporate value and achieve accountability by establishing a corporate governance system that results in high management transparency and strong management monitoring, while at the same time engaging in speedy and appropriate management decision making.

The Board of Directors has established corporate governance by adopting the Fundamental Policies of Corporate Governance as a key set of rules subsequent to the Companies Act, relevant laws and regulations and the Articles of Incorporation, and reviews it at least once a year.
(<https://www.jal.com/en/philosophy-vision/governance/#thinking>)

[Reasons for Non-compliance with the Principles of the Corporate Governance Code]

The JAL Group have implemented all principles of the Corporate Governance Code revised on June 11, 2021 and have established a corporate governance system. We will continuously work to increase corporate value.

[Disclosure Based on the Principles of the Corporate Governance Code]

[Principle 1.3 (Basic Strategy for Capital Policy)]

(Fundamental capital strategy policy)

- (1) In order to plan for future corporate growth and adapt to changes in the management environment so as to be prepared for business risks unique to the air transportation business, JAL Group strives to secure net assets required for capital expenditures and to keep the equity ratio stable.
- (2) It has established a system to secure diverse and flexible means of procuring capital and strives to maintain a good credit rating to realize this.
- (3) JAL Group is also aware of cost of equity and to achieve a level of capital efficiency that exceeds the costs, establishes a management plan and financial targets and discloses and explains them including concrete measures to achieve its targets.

(Policy on shareholder return)

We regard shareholder returns as one of our most important management matters. Our fundamental policy is to actively implement shareholder returns through continuous and stable dividends and flexible share repurchases, while securing internal reserves for making investments for corporate growth in the future and changing business environments and to build a strong financial structure.

The dividend amount will be decided with emphasis on continuity, stability and predictability, targeting a dividend payout ratio of around 35%. In addition, we will actively and flexibly consider share repurchases, taking into account the company's financial situation and other factors. As a result, we will strive to keep the total payout ratio within the range of around 35% to 50%, based on the sum of dividends paid out and share repurchases, by appropriately allocating profits and managerial resources to our stakeholders.

At the same time, we continuously strive to improve capital efficiency through monitoring return on equity ratio, which is calculated by dividing the sum of total dividends paid out and share repurchases by shareholders' equity. We make efforts to maintain this ratio at approximately 3% or above.

The Ordinary General Meeting of Shareholders approves the year-end dividend, but the Articles of Incorporation state that the Company may pay an interim dividend after approval by the Board of Directors, based on a record date of September 30.

The Articles of Incorporation state that the Company may pay an interim dividend after approval by the Board of Directors, based on a record date of September 30.

Since the Company expects revenue and profit growth, mainly as a result of higher domestic passenger revenue due to further growth in unit prices and higher international passenger revenue due to a recovery in demand for flights from Japan, the annual dividend forecast for the next fiscal year is 80 yen per share, of which the interim dividend forecast is 40 yen per share. In line with the recovery of our business results, we will strive to realize continuous and stable shareholder returns, which has been our basic policy for some time.

(Actions to achieve a sense of management with respect to cost of capital and stock price)

【Update on : August 30, 2024】

On the financial side, we are conscious of our cost of capital and strive to improve capital efficiency. An overview of our financial strategy and targets are presented in JAL REPORT, our integrated report .

Japanese version (<https://www.jal.com/ja/sustainability/report/>)

English version (<https://www.jal.com/en/sustainability/report/>)

[Principle 1.4 (Cross-Shareholdings)]

(Principle on holding shares of listed companies)

Building cooperative and collaborate relationships over a broad range of fields such as sales, procurement, and service provision, and maintaining good relationships with local communities are indispensable in operating the air transport business. It is necessary to strengthen relationships with partners in various areas to survive in global competition and achieve growth. To achieve these goals, we may buy and hold shares in other companies. In these cases, we will carefully select and hold shares of companies that will contribute to enhancing our corporate value, on the precondition of maintaining trusting relationships with our stakeholders.

The fundamental policy of holding shares in listed companies is that we will hold the minimum number shares to meet the above goals.

(Contents of verification)

We will always verify the degree of contribution to corporate value enhancement of holding shares. Specifically, we compare profit on transactions attributable to dividends received and shares held with target capital cost, conduct quantitative study and take into consideration qualitative factors.

We also pay attention to market value. If we judge that it is meaningless to hold certain shares in terms of enhancing our corporate value, we will consider selling them, while taking into account the impact on the market and other business matters.

The policy regarding the reduction of shareholdings in listed companies by JAL Group was confirmed by the Board of Directors on January 17, 2024. The JAL Group is currently considering a partial reduction of its shareholdings.

(Standards for exercising voting rights)

Regarding our principle on exercising voting rights of shares we own in a company, we will exercise voting rights in order to contribute to sustainable growth and medium to long-corporate value enhancement of the invested company, on the major premise of contributing to enhancing our corporate value.

[Principle 1.7 (Related Party Transactions)]

Transactions between related parties, such as Directors and major shareholders, etc. are approved by the Board according to Regulations of the Board of Directors. The Board monitors transactions by approving individual transactions.

Matters concerning Directors who have transactions in competition with the Company and transactions with third parties where there is a conflict of interest between the Company and Directors are also approved by the Board according to Regulations of the Board of Directors. Regulations of the Board of Directors stipulate that a Director who has a special interest in any proposal that is deliberated by the Board of Directors shall not be entitled to vote on such matter.

[Supplementary Principle 2.4.1 (Ensuring Diversity, Including Active Participation of Women)]

We are aware that the promotion of the active role of diverse human resources is one of our most important management issues. Accordingly, we have set targets for the ratio of female managers as a management target in the JAL Group Medium Term Management Plan for FY2021-FY202 and have established a HR development policy and a policy to develop an environment that ensures diversity in employment of core personnel, including appointment of non-Japanese and mid-career hires to management positions. These policies and status of implementation are provided on the JAL website.

(<https://www.jal.com/en/sustainability/report/>)

[Principle 2.6 (Roles of Corporate Pension Funds as Asset Owners)]

The Company adopts the defined benefit corporate pension plan and manages the pension fund through the JAL Corporate Pension Fund.

The JAL Corporate Pension Fund has established a fundamental policy on pension asset management and has drawn up a basic asset allocation plan in order to ensure pension benefits into the future.

Changes to the fundamental policy and implementation of new investments require resolutions by the Board of Directors and Board of Representatives. Employees with appropriate qualities are elected as Directors and Representatives.

The Vice President of Finance of the Company serves as the Pension Investment Director who executes management and investment duties of the pension fund. Members of the Secretariat strive to improve their expertise by attending external seminars and such.

The Pension Finance Committee, which is placed under the Chair of the Board of Directors, deliberates on financial operation in general, monitors operation, reports results and submits proposals to the Chair, and reports results to the Board of Representatives.

[Principle 3.1 (Full Disclosure)]

To enable our stakeholders to easily access JAL Group's corporate stance, various information such as the JAL Group Fundamental Policies of Corporate Governance, Corporate Policy, management strategies, and management plan, is posted on our website. We issue "JAL Report" containing financial information and CSR activities each year.

(<https://www.jal.com/en/sustainability/report/>)

Details of our Corporate Policy, management strategies, management plan and fundamental principles of corporate governance, etc. are as follows.

(1) Corporate Policy, management strategy, management plan
(Corporate Policy)

We have established the JAL Group Corporate policy as follows. Details are provided on our website.

"The JAL Group will pursue the material and intellectual growth of all our employees, deliver unparalleled service to our customers, and increase corporate value and contribute to the betterment of society."

(<http://www.jal.com/en/outline/philosophy.html>)

(Management strategies, management plan)

The Company formulated and announced on May 7, 2021 the FY2021-2025 JAL Group Medium Term Management Plan and realizing JAL Vision 2030, our vision statement of what we intend to be by 2030. In FY2023, the third year of the “FY2021-2025 JAL Group Medium-term Management Plan,” we achieved profits exceeding the FY2019 level. However, we faced new challenges common to all of society, such as unstable global conditions, rising prices, and a shortage of human resources.

In light of these changes in the business environment, we have formulated the “Medium-term Management Plan Rolling Plan 2024” in order to accomplish the Medium-term Management Plan in FY2025 and to prepare ahead of time for medium- to long-term growth.

We have positioned the ESG strategy as our top-level strategy since FY2023. While taking care of the environment, we have been working not only to provide a means of air transportation, but also to increase and improve the relationships and societal connections brought about by the movement of people and goods through air transportation.

We will strive to increase the number of people related to interacting communities and improve the level of community involvement to solve social issues, while steadily advancing Green Transformation (GX) and human capital management.

Details of the FY2021-2025 JAL Group Medium Term Management Plan and Rolling Plan 2023 are provided on our website.

(<http://www.jal.com/en/outline/plan.html>)

(2) Fundamental concept and fundamental policy on corporate governance

Our fundamental concept on corporate government is indicated in 1-1 Fundamental concept of this Report.

The JAL Group Fundamental Policy on Corporate Government is posted on our website.

(<http://www.jal.com/en/outline/governance.html>)

(3) and (4) (Remuneration determination policy and process, and election and appointment/dismissal of senior management, Directors and Corporate Auditors)

We have established a Nominating Committee and Compensation Committee, which are voluntary committees.

Details of each committee are provided in II-1 Establishment of Voluntary Committees and Supplementary Explanation of this Report.

When appointing or removing an Executive Officer, the Board of Directors consults the Personnel Committee and takes into account the Personnel Committee's report on such matters before passing any resolution.

(5) Explanation of election and appointment/dismissal of individuals

The reason for appointment of Directors and Corporate Auditors is indicated on the Convocation Notice of the General Meeting of Shareholders.

[Supplementary Principle 3.1.3 (Sustainability initiatives)]

Disclosures based on this item are described in Our Approach and Efforts Concerning Sustainability (Supplemental Principle 3-1-3) at the end of this report.

[Supplementary Principle 4.1.1 (Range of delegation to management by the Board of Directors)]

In order to carry out efficient decision-making, the Board of Directors delegates decision-making of matters set forth in the Administrative Authority Criteria Table to the President, pursuant to Regulations for Kessai and Administrative Authority approved by the Board. To conduct detailed deliberations at Board meetings, we have established the Executive Management Council to deliberate over important issues among executive officers including the President in advance, clarify points at issue before submitting them to the Board, and contribute to appropriate and quick decision-making by the President.

[Principle 4.8 (Effective Use of Independent Directors)]

In order to establish a high level corporate governance system that demonstrates high management transparency and a strong management oversight function as well as to enhance corporate value, a minimum of one-third of the total number of directors is elected as Independent Outside Director candidates, in accordance with Standards for Independence of Outside Directors established by the Company and enhances management monitoring.

[Principle 4.9 (Independence Standards and Qualification for Independent Directors)]

The Company's standards for determining independence are provided in II.1. Relationship with Independent Directors of this Report. Outside Directors are appointed from persons with vast knowledge and experience in various fields in order to ensure diversity. Those who do not qualify as highly independent within the meaning of our "Standards for Independence of Outside Directors" are not appointed.

When appointing candidates for the position of Independent Outside Director, the Nominating Committee elects candidates after deliberating amongst the members from an objective standpoint and reports to the Board of Directors so that the Board is operated actively, constructively and strategically by diverse human resources and monitors and oversees from a neutral standpoint. On receiving the report from the Nominating Committee, the Board decides Independent Outside Directors through the Board's approval.

[Supplementary Principle 4.10.1 (Independence of the Nominating Committee and the Compensation Committee)]

Outside Directors account for a majority of members of the Nominating Committee and the Compensation Committee respectively, and the committee chair is elected by vote by members of the committees.

The Nominating Committee has the authority and role to deliberate on candidates for Executive Officers (including Executive Officers and Directors) and report to the Board of Directors. The Compensation Committee has the authority and role to deliberate on inquiries from the Board of Directors concerning remuneration for Executive Officers (including Executive Officers and Directors) and report to the Board of Directors. When deliberating important matters concerning appointments and remuneration of Executive Officers (including Executive Officers and Directors), the committees engage in their roles and provide advice appropriately from practical and multilateral perspectives including diversity and skills.

Other details are provided in II-1. Establishment of Voluntary Committees and Supplementary Explanation of this Report.

[Supplementary Principle 4.11.1 (Concept on balance of knowledge, experience and abilities in general, diversity and scale of the Board of Directors)]

Candidates for Director are elected from among persons who have extensive experience, deep insight and specialized knowledge in various fields, with consideration to making board composition diverse in terms of gender, internationality, career, age and other variables. The Company aims to increase female Board appointments.

With regard to the specialized knowledge and experience that the Company's Directors and Audit and Supervisory Board Members should possess, the necessary skill set includes the basic corporate management skills of Management Experience, Finance & Accounting, Legal/Risk Management, Personnel Affairs/Talent Development, as well as Safety Management, which is particularly important given the business characteristics of the Company, and also Global Experience, CX/Marketing, DX/IT/Technology, and GX/Environment.

The Nominating Committee selects candidates for Director with reference to their experience and skills based on the above concept of Board composition, and additionally takes into account management experience in other companies when selecting candidates for Independent External Directors. After the Board of Directors receives a report from the Nominating Committee, candidates for Director are decided by a Board resolution. On receiving a report from the Nominating Committee, the Board decides Directors as resolved by the Board.

[Supplementary Principle 4.11.2 (Status of concurrent duties of Directors and Corporate Auditors)]

When a Director or Corporate Auditor performs concurrent duties as director of another listed company, it is reported to the Board, on confirming whether holding concurrent duties will affect duties as Director or Corporate Auditor of the Company. Persons who hold concurrent positions such as Director or Corporate Auditor in more than four listed companies excluding the Company are not elected either.

The status of concurrent duties of Directors and Corporate Auditors is provided on our website. (<http://www.jal.com/en/outline/directors.html>)

[Supplementary Principle 4.11.3 (Analysis and evaluation of effectiveness of the Board of Directors)]

The Board of Directors has established a Corporate Governance Committee composed of the Chairperson of the Board and Outside Directors. Each year, it assesses the effectiveness of the Board and reviews operation, etc. appropriately, while referring to self-assessment by each Director, etc. An overview is carried on our corporate website. An analysis by a third-party organization is used to ensure an objective assessment.

(<https://www.jal.com/en/philosophy-vision/governance/#effectiveness>)

Other details are provided in II-2 under Board of Directors "Ensuring Effectiveness of the Board of Directors" of this report.

[Supplementary Principle 4.14.2 (Policy on training for Directors and Corporate Auditors)]

- (1) Legal considerations are explained to Directors, as necessary, to ensure that they are fully aware of their duties, including the fiduciary duties of the duty of loyalty and the duty of care. They are provided opportunities for continuous participation in external training and affiliated organizations.
- (2) In addition to the provision of corporate information, Audit and Supervisory Board Members are given opportunities to participate in external training and external organizations.
- (3) Outside Directors and Outside Audit and Supervisory Board Members receive advance explanations on Board agendas, corporate information and other requests, as appropriate. In order to deepen the understanding of the Company, Directors and Audit and Supervisory Board Members receive explanations on safety matters through visits to frontlines, a climb up Mt. Osutaka, a tour of the Safety Promotion Center, and explanations on company history and the JAL Philosophy.
(<https://www.jal.com/en/philosophy-vision/governance/#support>)

[Principle 5.1 (Policy for Constructive Dialogue with Shareholders)]

We are aware that the general meeting of shareholders is a venue for constructive dialogue with shareholders, secure and provide a period for them to sufficiently examine accurate information from their standpoint through the Convocation Notice of the General Shareholders' Meeting, etc.

Furthermore, we conduct IR (Investor Relations) activities to maintain positive interactive communication under the following policy, in which Representative Directors, the Finance and Accounting Director, etc.

Engage in active dialogue, and fairness, accuracy and continuity of management strategies, business strategies, financial information, and such are emphasized.

(<https://www.jal.com/en/philosophy-vision/governance/#dialogue>)

- (1) The Finance and Accounting Director, and the General Affairs Director are assigned as management to oversee dialogue with shareholders.
- (2) We assign a supervisor to oversee information gathering, management and disclosure, and also staff to implement these duties in the Finance Department, and disclose information in a timely, fair and appropriate manner in coordination with related departments.
- (3) We hold meetings to explain our financial results and management plan when announcing them, issue an integrated report, "JAL Report," etc., hold meetings for shareholders to explain other matters, and arrange tours of facilities, etc. to promote investment opportunities and improve information disclosure.
- (4) We feedback results of dialogue with shareholders to management, as necessary, so that management may share the shareholders' requests and opinions and an awareness of issues, and reflect their views in corporate management.
- (5) We establish and disclose a "silent period," during which we do not provide any replies or comments to inquiries or information on corporate status to prevent information leaks and ensure fairness. We conduct information management and control insider information.

[Supplementary Principle 5.1.1 (Responder to the shareholders)]

To strengthen constructive dialogue with shareholders, we organize meetings with Executive Officers in accordance with the wishes of shareholders and investors. We also offer opportunities for Outside Directors to engage in dialogue with investors on corporate governance to deepen their understanding of the Company from various perspectives.

Specific information on the status of dialogue with shareholders is provided below.

- Integrated Report 「JAL REPORT」 (<https://www.jal.com/en/sustainability/report/>)
- Our website (<https://www.jal.com/en/investor/library/ir-event/>)

[Principle 5.2 (Establishing and Disclosing Business Strategies and Business Plans)]

Our company have formulated the "Medium-term Management Plan Rolling Plan 2024 (Rolling Plan)" in order to accomplish the Medium-Term Management Plan in FY2025 and to prepare ahead of time for medium- to long-term growth.

FY2023, after completing three years of the "FY2021-2025 JAL Group Medium-term Management Plan," we achieved profits exceeding the FY2019 levels, with EBIT of 145.2 billion yen. We will aim to realize further profit growth through business model reform and achieve the profit targets set at EBIT of 170.0 billion yen for FY2024 and EBIT of 200.0 billion yen for FY2025.

All employees will work together with a strong sense of mission to achieve this plan. Going forward, we will make necessary revisions to the plan after evaluating changes in the environment and other various factors.

[Supplementary Principle 5.2.1 (Business portfolio)]

The FY2021-2025 JAL Group Medium Term Management Plan and Rolling Plan 2024, which were approved by the Board of Directors, describes strategies in each business area and our resource allocation policy for building a sustainable and resilient business portfolio. The FY2021-2025 JAL Group Medium Term Management Plan and Rolling Plan 2024 are provided on our website.

(<https://www.jal.com/en/investor/library/mid-term/>)

These strategies and policies will be periodically evaluated and reviewed in light of changes in the business environment.

Number of Consolidated Subsidiaries as of the End of the Previous Fiscal Year	From 50 to less than 100

4. Policy on Measures to Protect Minority Shareholders in Conducting Transactions with Controlling Shareholder

—

5. Other Special Circumstances which may have Material Impact on Corporate Governance

(1) Basic Approach to Business Portfolio Strategy

The JAL Group has established a basic management policy for our group of 134 subsidiaries and 34 affiliates, as defined in the Enforcement Regulations of the Companies Act of Japan, in accordance with the JAL Group Company Management Regulations. The JAL Group aims to maximize consolidated corporate value through the fair and efficient management of each Group company in accordance with the JAL Group Corporate Philosophy and by contributing to the sound development of the entire Group. We respect the management autonomy of our Group companies, and our basic policy is to maintain and improve market competitiveness and enhance corporate value through market-based pricing in principle when we do business with each company. On the other hand, we do not participate in the decision-making process with respect to affiliates, except to the extent agreed upon in the shareholders' agreement with respect to certain non-listed group companies.

(2) Rational of Holding Listed Affiliates

Two of our companies, namely Airport Facilities Co. Ltd. and AGP Corporation, are listed affiliates. The benefits of maintaining a public listing for each of these companies include, in common with each, an expansion of business partners based on recognition, creditworthiness, and independence from the JAL Group, as well as maintaining and improving the Group's financing, motivating employees and recruiting competitiveness.

On the other hand, the disadvantages of holding Group companies as listed affiliates include, as common to each, the outflow of economic benefits to outside parties, restrictions on the execution of our Group management and strategies due to the need to consider minority shareholders, difficulties in obtaining information, and the cost of maintaining a public listing.

The Group's Board of Directors regularly reviews the significance of the listing of its listed affiliates and the rationale for holding them.

Airport Facilities Co. Ltd.

With the purpose of financing the Haneda Offshore Development Project and the construction of aviation support facilities at various airports, the Airport Facilities Co. Ltd. was listed on the OTC market in 1993, the Second Business Division of the Tokyo Stock Exchange in 1995, the First Section of the Tokyo Stock Exchange in 1997, and is currently listed on the Prime Market of the Tokyo Stock Exchange (KKU).

Airport Facilities Co. Ltd. maintains dialogue with the Group, an airport user, to enable more effective and efficient capital expenditure (CAPEX) and operations. The listing also enhances corporate value by strengthening their ability to self-finance their operations to meet the large long-term capital needs associated with owning and maintaining airport infrastructure.

Based on the above, we believe that having Airport Facilities Co. Ltd. as an affiliate of the JAL Group will lead to the sound development and contribute to maximizing the corporate value of our Group as a whole.

AGP Corporation

AGP Corporation was listed on the JASDAQ section of the Tokyo Stock Exchange in 2001 and is currently listed on the Tokyo Stock Exchange Standard Market.

The company aims to enhance its corporate value by promoting dialogue with JAL Group, a major user of ground power equipment for aircraft and airport facility maintenance, which are the company's main businesses, to achieve more efficient and effective capital expenditure (CAPEX) and operations. By going public, AGP Corporation is also aiming to enhance its corporate value by strengthening its ability to finance its own operations to meet its financing needs.

Based on the above, we believe that having AGP Corporation as our affiliate will lead to the healthy development of the Group and will contribute to maximizing the corporate value of our Group as a whole.

Measures to Ensure the Effectiveness of the Governance System of Listed Affiliates

Regarding the way of thinking and policies regarding the exercise of voting rights for the election and dismissal of directors and officers of listed affiliates, and involvement in the process of nominating directors and officers.

Given that there is a risk of conflict of interest between the Group and its general shareholders, and in order to ensure independent decision-making, the Group, on the premise of establishing an effective governance system that effectively utilizes independent outside directors, will consider the composition of the Board of Directors consisting of will exercise its voting rights based on its own judgment as to whether or not the candidate has a wealth of experience, high level of knowledge and skills, while also considering the interests of minority shareholders of the listed affiliated company, and is capable of contributing to the further enhancement of corporate value of the listed affiliated company.

There is no involvement (prior approval, prior consultation, prior reporting, and the like) of the Group in the decision-making process of listed affiliates, nor is there any agreement among shareholders that would permit such involvement.

In the process of nominating candidates for Executive Officers, at the request of listed affiliates, the Group recommends candidates for Executive Officers, who are interviewed by the Nominating Committee of the company and then deliberated based on the Skill Matrix and reported to the Board of Directors. After the Board of Directors confirms that the nominees will not harm the interests of minority shareholders, they are put forward to the General Meeting of Shareholders as candidates for directors. Furthermore the nominated director of the company, who is appointed to the Board of Directors of the company, will participate in the decision-making process in the interest of the company based on the duty of care.

In addition to the above, transactions between the Group and its listed affiliates are based on individual contracts with terms and conditions determined through negotiations between the two companies. Furthermore, at listed affiliates, we strive to ensure that the interests of shareholders of affiliates are not unfairly impaired through the establishment of special committees composed of independent persons, including independent outside directors.

Airport Facilities Co. Ltd.

The company's investment decisions and contractual decisions regarding important transactions, actions, capital policies, and other matters in which the interests of the major shareholders or their affiliates may conflict with those of minority shareholders, are made in a fair and neutral manner from all perspectives based on the company's decision-making criteria.

AGP Corporation

In response to inquiries from the Board of Directors regarding important transactions, actions, capital policies, and other matters that may conflict with the interests of minority shareholders, the independent, fair and neutral Special Committee deliberates and examines such matters from the perspective of protecting the interests of minority shareholders, and submits its opinions to the Board of Directors, which then makes resolutions after giving due consideration to the Committee's recommendations.

II. Business Management Organization and Other Corporate Governance Systems regarding Decision-making, Execution of Business, and Oversight in Management

Supplementary Explanation

<p>[Nominating Committee]</p> <p>When submitting a proposal to the General Meeting of Shareholders concerning the appointment of candidates to the positions of Director and Corporate Auditor, the Nominating Committee will make comprehensive judgment of the personality, knowledge, ability, experience and performance, and the like, of the candidate based on an inquiry from the Board of Directors and will report back to the Board.</p> <p>In addition, The qualifications required of the President and other leaders are as follows: "Persons with qualities to steadily achieve positive results toward realizing the Corporate Policy by working together with all employees based on a firm commitment to flight safety, which is the basic foundation of business continuity for the JAL Group. They must also display initiative in practicing the JAL Philosophy. The Nominating Committee discussed who to select as our President's successor. On January 17, 2024, the Committee decided on the new President and reported back to the Board of Directors.</p> <p>If the business conduct of any member of top management is found questionable due to legal violations, harassment, negligence of the Board, to name a few, the Nominating Committee and/or Directors, excluding the person in question, will immediately investigate the situation based on a motion made by a Director at a Board meeting or other meetings, and the like, the Nominating Committee and/or Directors excluding the person in question will immediately investigate the situation based on a motion made by a Director at a Board meeting or other meetings. The Nominating Committee and/or Directors will report findings to the Board, which will then decide on an appropriate disciplinary penalty.</p> <p>The Nominating Committee is comprised of the President and no more than four Directors elected by a resolution by the Board of Directors, and the majority of members shall be External Directors. The Chair shall be selected from among the Outside Directors by mutual vote of the committee members.</p> <p>< In FY2024 > Chairperson: YANAGI Hiroyuki Board Member: TOTTORI Mitsuko, SAITO Yuji, KOBAYASHI Eizo, MITSUYA Yuko</p>

< In FY2023 >

Chairperson: YANAGI Hiroyuki

Board Member: AKASAKA Yuji, SHIMIZU Shinichiro, KOBAYASHI Eizo, MITSUYA Yuko

Number of meetings : 9 meetings attended by all the members

Main activities : In addition to the matters to be reported to the Board of Directors, the committee discussed the requirements and processes related to the selection of candidates for Executive Officers for a change of officers, the process for confirming the reappointment of the President, and future succession plans for management personnel. In regards to FY2023, a series of discussions were held particularly about the selection of the incoming President. Considering a management structure that promotes the steady implementation of the Medium Term Management Plan and creating customer value, the discussion resulted in selecting Ms. Tottori as a candidate for President and announced her candidacy on January 17, 2024.

[Compensation Committee]

The Compensation Committee discusses matters concerning the amount of compensation for Directors, Executive Officers and Corporate Auditors based on an inquiry from the Board of Directors and reports back to the Board. In addition, the committee reviews the remuneration system as appropriate to ensure that it provides sound incentives for sustainable growth.

The Compensation Committee is comprised of the President and no more than four Directors elected by a resolution by the Board, the majority of members being Outside Directors. The Chair shall be selected from among the Outside Directors by mutual vote of the committee members. As a result, transparency and fairness in the compensation determining process is secured.

< In FY2024 >

Chairperson: KOBAYASHI Eizo

Board Member : TOTTORI Mitsuko, SAITO Yuji, YANAGI Hiroyuki, MITSUYA Yuko

< In FY2023 >

Chairperson: KOBAYASHI Eizo

Board Member AKASAKA Yuji, SHIMIZU Shinichiro, YANAGI Hiroyuki, MITSUYA Yuko

Number of meetings : 5 meetings attended by all the members

Main activities : the Committee discussed matters to be reported to the Board of Directors, such as the requirements and processes for the selection of candidates for Executive Officers during the change of officers, the process for confirming the reappointment of the President, and future succession plans for management personnel, to name a few.

Outside Audit & Supervisory Board Members Relationship with the Company (2)

Name	Designation as Independent Audit & Supervisory Board Member	Supplementary Explanation of the Relationship	Reasons of Appointment
KUBO Shinsuke	○	NONE	<p>Since joining the Tokyo Marunouchi Office of the Sanwa Audit Corporation (currently Deloitte Touche Tohmatsu Limited), Mr. KUBO Shinsuke has undertaken a number of corporate audits, stock listings, corporate revitalization and M&A, and has abundant experience and a proven track record, as well as advanced knowledge of accounting. He provides auditing and advice on accounting matters as an Audit and Supervisory Board Member of the Company. Based on the above, the Company has judged that he is an appropriate person for maintaining the soundness of our company and realizing the sustainable enhancement of corporate value, and has appointed him as an Outside Audit and Supervisory Board Member who meets the Standards of Independence of Outside Director as stipulated by the Company.</p>
OKADA Joji	○	NONE	<p>Mr. OKADA Joji has a high degree of insight into overall audit operations, including governance and risk management through his practical experience and expertise as the head of a general trading company's management and finance and accounting departments. He also has extensive experience as a full-time auditor of a general trading company and the head of the Japan Corporate Auditors Association. As a corporate auditor of the JAL Group, he provides audits and advice on financial and other matters. Based on the above, we believe that he is an appropriate person to maintain the JAL Group's soundness and to realize sustainable enhancement of our corporate value. Thus he has been appointed as an Outside Audit and Supervisory Board Member, who satisfies our Criteria for Independence of Outside Directors and Outside Corporate Auditors.</p>
MATSUMURA mariko	○	NONE	<p>Ms. MATSUMURA Mariko registered as a lawyer in April 1988. She has a wealth of experience and insight in the legal and compliance fields, and has served as the Chair of the Daiichi Tokyo Bar Association. Based on the above, we determined that she is an appropriate person to maintain the JAL Group's soundness and continuously improve its corporate value through auditing and advice on legal and other matters. Thus she has been appointed as Outside Audit and Supervisory Board Member, who satisfies our Criteria for Independence of Outside Directors and Outside Corporate Auditors.</p>

[Independent Directors/ Audit & Supervisory Board Members]

Number of Independent Directors/ Audit & Supervisory Board Members	6
--	---

Matters relating to Independent Directors/ Audit & Supervisory Board Members

All Outside Directors who qualify as independent are appointed as Independent Directors.

We have established the following standards to determine if an Outside Director qualifies as independent in order to establish a corporate governance system that results in high management transparency and strong management monitoring and to enhance corporate value. (Basically, persons who are not described as follows qualify as independent.)

1. A person who executes or has executed business in the Company or a consolidated subsidiary in the past 10 years
2. A person who is described by any of the items a ~ f in the past three years.
 - a. a business counterpart or a person executing business of such business counterpart, whose transactions with the Company for one business year exceeded 1% of consolidated revenue of the Company or the business counterpart
 - b. a major shareholder of the Company or a person executing business of such shareholder holding an equity ratio of 5% or more in the Company
 - c. a major lender for the Company or a person executing business of such lender.
 - d. a person who receives over JPY 10 million in donations annually from the Company or a person belonging to an entity receiving such donations
 - e. a person receiving remuneration of over 10 million yen excluding director remuneration from the Company or a person belonging to an organization receiving remuneration exceeding 1% of consolidated revenue of the Company.
 - f. a person executing business of the Company, who also executes business of another company as Outside Director
3. The spouse or relative within the second degree of kinship of an individual described in 1 and 2.

(Note) A person executing business refers to an executive director or executive officer.

Meetings comprising Independent Outside Directors and Independent Outside Audit & Supervisory Board Members and meetings attended by Outside Accounting Auditors and Independent Outside Directors are held regularly.

—

[Director Remuneration]

Disclosure of Individual Directors' Remuneration	No Individual Disclosure
--	--------------------------

Supplementary Explanation

The total amount by type, such as remuneration of Director, Corporate Auditor and Outside Director and the number of applicable Directors are disclosed.

Policy on Determining Remuneration Amounts and Calculation Methods	Established
--	-------------

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods

Fundamental policies

- (1) The Company will encourage the performance of duties consistent with our Corporate Policy and management strategies and provide strong incentives for the achievement of specific management targets, with the aim of sustainable and steady growth of the Company and the Group, and of medium to long-term improvement in corporate value.
- (2) The Company will establish appropriate proportions for performance-linked bonus linked to fiscal year performance and, for the purpose of further promoting the aligning of interests with shareholders, performance-linked share-based remuneration linked to corporate value in accordance with medium to long-term performance, in order to contribute to the demonstration of sound entrepreneurial spirit.
- (3) The Company will provide treatment that is appropriate to the management team of the Company, in accordance with the Company's business performance.

Remuneration levels and remuneration composition ratios

- (1) The Company will set appropriate remuneration levels with reference to objective market data on remuneration and based on the business conditions of the Company.
- (2) Taking into account factors including the content of the Company's business and the effectiveness of performance-linked remuneration, the Company sets the proportions of (1) amount of fixed basic remuneration*, (2) amount of performance-linked bonus to be paid according to the degree of achievement against targets, and (3) amount of performance-linked share-based remuneration to be issued according to the degree of achievement against targets, as follows.

Guideline for the case of 100% achievement against targets: (1):(2):(3) = 50%:30%:20%

The above ratio is meant to be a guideline only, and changes may be made to reflect changes in the share price of the Company's shares or for another reason.

- * The amount excludes the amounts of allowances in cases in which an Executive Officer serves concurrently as Director, and the amounts of allowances when the Executive Officer has representative authority.

Framework for performance-linked remuneration

Performance indicators for performance-linked bonus and performance-linked share-based remuneration are reviewed as appropriate in accordance with changes in the business environment and the roles of each officer. We will review the performance indicators for performance-linked bonus and performance-linked share-based remuneration in order to powerfully drive, from FY2022, our finance strategy, business strategy and ESG strategy, which are the three pillars of management strategy in the Medium Term Management Plan.

There is no provision of performance-linked share-based remuneration for each of the periods which started in FY2020 and FY2021, respectively, in light of our performance and other factors.

- (1) The amount of performance-linked bonus paid each fiscal year will range from 0 ~ 150 depending on the achievement level, on the basis that the amount to be paid when performance targets are achieved is 100. Performance indicators utilized are EBIT and Individual Performance Indicators for Each Officer (* 1), taking into consideration the achievement level of aviation safety targets.
- (2) The number of shares to be granted each fiscal year as performance-linked share-based remuneration will range from 0 ~ 150 depending on the achievement level, on the basis that the number of shares to be granted when performance targets are achieved is 100 (*2). The performance evaluation period (vesting period) is three fiscal years and performance over three consecutive three fiscal years will be evaluated each fiscal year. Performance indicators utilized are TSR (ratio to TOPIX including dividends), consolidated ROIC, the number of ESG stocks selected, and carbon emissions per revenue ton-kilometers, which are priorities in the Medium-Term Management Plan.

(*1) Individual Performance Indicators for Each Officer will not be set for the Chairperson or the President. Performance evaluation will be based on net profit attributable to owners of parent until FY2021 and EBIT from FY2022.

(*2) The number of shares granted in the final fiscal year of the Medium-Term Management Plan will be adjusted, ranging between 0 ~ 200 depending on the achievement level of targets in the Medium Term Management Plan.

With respect to common stock granted to eligible Directors and Executive Officers through the share-based remuneration plan, the Company will establish a target number of held shares for each position and impose limits on share sales to further promote the aligning of interests with shareholders. Executive officers cannot sell their shares until performance-linked share-based remuneration has been issued to the amount equivalent to three years' worth (based upon when 100% of performance targets are achieved).

Procedures for determination of remuneration, etc.

Matters related to remuneration of Directors and Executive Officers will be decided by the Board of Directors, following deliberation and reporting within the Compensation Committee established by the Company. A majority of the members of the Compensation Committee will be Outside Directors, and the Chair will be appointed from among Outside Directors.

Performance-linked bonus for the performance evaluation period of FY2020 and performance-linked share-based remuneration for the performance evaluation period beginning in FY2018 have not been provided as explained above.

[Supporting System for Outside Directors and/or Audit & Supervisory Board Members]

The Secretary Office assists Outside Directors regularly as secretary, such as checking schedules, conveying information, and providing materials. The Corporate Auditor Office or full-time Corporate Auditors depending on the matter directly contacts Outside Audit and Supervisory Board Members and assists them regularly in a similar manner.

The agenda of a Board meeting is sent to directors about one week before the meeting, and materials and necessary briefings are provided as necessary for individual questions and comments. We have established a system so that Outside Directors and Outside Audit and Supervisory Board Members can attend and present

opinions at Executive Management Council meetings, where deliberations are conducted over important issues requiring a resolution of the Board and matters requiring approval by the President that need to be confirmed by the Executive Management Council before submitting them to the Board or to the President.

[Situation of those who have retired from the representative directors, etc.]

[Name of Corporate Counselor or Adviser who have retired from the representative directors, etc.]

Name	Position	Business outline	Work Condition	Retirement of the representative directors, etc.	Term
UEKI Yoshiharu	Special Director	Matters commissioned by the Company (external affairs including activities in the business community, activities by various organizations and associations)	Non-permanent, remuneration to be paid	Mar,31,2024	One year from July 1, 2024

Number of the relevant person	1
-------------------------------	---

【Other matters】

The Company has regulations concerning “Special Directors” in place, prescribing that persons who have served as Chairperson, Vice-Chairperson and/or President shall be elected, after retiring as an executive director, as a Special Director by a resolution of the board of directors (up to 2 years) . A Special Director will not be involved in the day-to-day management of the Company.

On the other hand, the Company requires the support of retiring executive directors in external activities such as activities of the Company in the business community. Therefore, compensation and benefits shall be provided commensurate with the work performed under this framework.

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions

(Overview of Current Corporate Governance System)

To expedite the decision-making process, we adopt the Executive Officer system. There are 9 Directors (including 2 female Directors) and 27 Executive Officers excluding concurrent Directors (including 7 female Executive Officers). In addition,

[Relationship with Shareholders]

(1) Ensuring shareholder rights

We conduct business for the joint benefit of the Company and shareholders, comply with provisions stipulated in the Companies Act and Civil Aeronautics Act and give sufficient consideration to ensure that shareholders can exercise their rights smoothly. Especially, we are aware that the general meeting of shareholders is a venue for constructive dialogue with shareholders, and have developed an environment in which they can exercise their rights appropriately from their perspective.

Furthermore, we emphasize fairness, accuracy and continuity, actively engage in IR (Investor Relations) activities to maintain interactive communication, and promote constructive dialogue with shareholders.

(2) Social responsibilities as a corporate citizen

The JAL Group has established the Basic CSR Policy, "The JAL Group will strive to meet the expectations of society, address social issues, and pass on a better society to future generations through its core air transport business as the 'Wings of Japan'." We aim to realize our Corporate Policy by collaborating with our shareholders and practicing JAL Philosophy.

[Board of Directors]

(1) Board of Directors

The Board of Directors exercises strong management monitoring with a high degree of transparency through the nomination of Directors, Audit and Supervisory Board Members and Executive Officers, decision of officer remuneration, and important decision-making.

To fulfill this role,

- a. The Board separates the management monitoring and business execution functions. The Board Chair is nominated from among Directors who do not concurrently serve as Outside Officer.
- b. At least three highly independent candidates are nominated for Outside Director, and from the Ordinary General Meeting of Shareholders in June 2021, Outside Directors account for at least one-third of all Board members.
- c. In Fiscal 2021, we decided to increase female Director appointments.
- d. From fiscal 2021, Directors and Audit and Supervisory Board Members are required to basically attend at least 80% of all Board meetings.
- e. The Board transfers appropriate authority to the President to ensure efficient decision-making.

< In FY2024 >

Chairperson : AKASAKA Yuji

Members as of the date of submission: AKASAKA Yuji, TOTTORI Mitsuko, SAITO Yuji, AOKI Noriyuki, KASHIWAGI Yoriyuki, TAMURA Ryo, KOBAYASHI Eizo, YANAGI Hiroyuki, and MITSUYA Yuko

< In FY2023 >

Chairperson : UEKI Yoshiharu

Number of meetings : 16 meetings (Director UEKI attended 14 of the 16 meetings, President AKASAKA attended 15 of the 16 meetings, and other Directors and Audit and Supervisory Board Members attended all 16 meetings. Directors TOTTORI, SAITO, MITSUYA and Audit and Supervisory Board Member KIKUYAMA, who have been in office since June 2023, attended all of the 13 meetings.)

Main activities:

[Management Strategy]

- FY2021-2025 JAL Group Medium Term Management Plan Progress of Rolling Plan 2023
 - Initiatives related to sustainability
 - Progress in structural business reforms
 - Promoting human resources strategies
 - Promoting DX strategies

- Formulating the JAL Group Medium Term Management Plan Rolling Plan 2024 for FY2021 to FY2025

- Risk management related reports
- Measures towards the audit report submitted by the Audit and Supervisory Board Members
- Audit and Supervisory Board Member audit policies and results
- Policies of the Audit and Supervisory Board Members and their audit results
- Report on aircraft accidents
- Report on Administrative Guidances

[Dialogue with Stakeholders]

- Approval of proposals related to the General Meeting of Shareholders
- Operational status of shareholder benefit programs
- Initiatives to reinforce constructive dialogues with shareholders
- Feedback regarding IR orientation meeting
- Disclosure of information on Climate Change Based on TCFD

(2) Ensuring effectiveness of the Board of Directors

The Board of Directors evaluates board effectiveness with reference to a self-assessment by each Board member and Audit and Supervisory Board member, and appropriately reviews Board operations, in accordance with the Fundamental Policies of Corporate Governance.

[Process for the FY2023 Effectiveness Assessment]

- To improve the objectivity of the evaluation, an outside organization was asked to conduct a survey and hearing to evaluate all directors and audit and supervisory board members. Based on the assessment results by the outside organization, the Board of Directors discussed the assessment results and future initiatives. The questionnaire consisted of assessment questions (on a 5-point scale) and open-ended questions regarding board composition, supervision, management strategy, dialogue with shareholders, board culture, contributions of outside directors, and board operations.
- Subsequently, the Corporate Governance Committee (*), whose main members are independent outside directors and chaired by an independent outside director, summarized the recommendations and the Board of Directors decided on future initiatives as described below.
(*Outside audit and supervisory board members also attended.)

[Results of the FY2023 Effectiveness Assessment]

a. Summary of assessment results

The Board Effectiveness Assessment made by the outside organization was that "the effectiveness of the Board of Directors is adequately ensured." The organization also gave recommendations for further improvement. A summary is provided below.

- Through the FY2023 Board Effectiveness Assessment, it was confirmed that the overall board effectiveness of JAL's Board of Directors is adequate.

- The quantitative evaluation confirmed a high overall assessment of the delegation of authority to the execution, capital policy, and constructive comments by outside directors. On the other hand, there was recognition of issues related to the sharing of information on Nominating Committee activities with the Board of Directors, monitoring of execution, DX strategy, and executing and promoting risk-taking.
- Regarding qualitative assessment, through hearings with each director and audit and supervisory board member, it was confirmed that, as a whole, the Board of Directors is appropriately managed and fosters a climate that allows free and vigorous discussion. Also, the executive side is working to improve board effectiveness with strong enthusiasm and the supervisory side with a high level of commitment.
- As the business environment becomes increasingly complex, it is desirable to consider the following matters to maintain and develop board effectiveness and to promote important measures such as business restructuring under the new structure, leading to the realization of increased corporate value.
 - Establish ideal monitoring methods by the Board of Directors.
 - Elevate discussions on medium- to long-term improvement of corporate value.
 - Consider an ideal composition of the Board of Directors.
 - Develop next generation management leaders, including the president.

b. Evaluation of Priority Tasks for the Fiscal Year

We evaluated the key issues for FY2023, which we set at the beginning of the fiscal year, based on the results of questionnaires and hearings conducted by the outside organizations, as follows.

Sustainability

- The current issues and efforts to promote ESG strategies were discussed comprehensively.
- Ongoing efforts are needed to quantify targets and establish monitoring methods.

Business Restructuring

- We received regular progress reports and a sufficient level of supervision in each domain, including LCC and Mileage/Commerce.

Enhancement of human capital

- During the year, more in-depth discussions were held on the status of the implementation of the strategy and future steps to be taken.
- Further specification of a roadmap is needed to realize the goal.

Promotion of DX strategy

- The challenge is to go beyond operational efficiency and implement new value creation and business transformation.
- Requires accelerating enforcement efforts and strengthening supervisory functions.

[Outline of Future Initiatives]

We will act based on the above assessments.

a. Establish ideal monitoring methods by the Board of Directors.

To further clarify the objectives, targets, performance indicators, and roadmap for initiatives across the business domains, including the enhancement of human capital to support business structural reforms and the promotion of DX strategies, among others, in order to complete the Medium-Term Management Plan-Rolling Plan (MRP) 2024, and to strengthen the supervisory function.

In addition, We will upgrade its risk management functions by, for example, accurately identifying risks in new business domains, and the like.

b. Elevate discussions on medium- to long-term improvement of corporate value.

Expand time for discussion of medium- and long-term strategies, and the like, while also encouraging risk-taking to further enhance corporate value in the future.

c. Consider an ideal composition of the Board of Directors and develop next generation management leaders, including the president.

In addition to the above discussion, the Nominating Committee and other committees shall deepen discussions and report regularly to the Board of Directors.

(3) Directors

[Board diversity]

- a. Directors are selected from those with extensive experience in various fields and high insight and expertise, paying attention to ensuring diversity in terms of gender, international nature, work history, and age, among others. We also aim to have more than one female director from FY2021. In addition to the previous one outside director, we have now appointed one in-house director to realize a system with multiple female directors.
- b. The skills matrix for expertise and experience that directors should possess was developed in FY2021, and revised in FY2023, before being made public.
(<https://www.jal.com/en/philosophy-vision/governance/#skillmatrix>)

[Outside Directors]

- a. Outside Directors shall provide advice on the Company's management from a practical and multifaceted perspective and appropriately supervise the execution of business operations.
- b. Outside Directors are appointed from persons with vast knowledge and experience in various fields in order to ensure diversity. Those who do not qualify as highly independent within the meaning of our “Standards for Independence of Outside Directors” are not appointed. In addition, we will not appoint any person who concurrently serves as a Director, Audit and Supervisory Board Member, etc. for more than four other listed companies.
- c. One Outside Director shall be appointed as Lead Independent Outside Director to improve coordination with Audit and Supervisory Board Members and internal divisions.

[Corporate Auditors and Audit and Supervisory Board]

(1) Audit and Supervisory Board

The Audit and Supervisory Board makes appropriate judgment from an independent objective standpoint, based on their fiduciary responsibilities to the shareholders, when fulfilling their role and responsibilities such as auditing the execution of Director's duties, appointing or removing accounting auditors, and executing rights concerning auditor remuneration.

< In FY2024 >

Chairperson : KITADA Yuichi (Audit and Supervisory Board Member)

Members as of the date of submission: KITADA Yuichi, KIKUYAMA Hideki, KUBO Shinsuke, OKADA Joji, and MATSUMURA Mariko

< In FY2023 >

Chairperson : KITADA Yuichi (Audit and Supervisory Board Member)

Number of meetings: 15 meetings (Audit and Supervisory Board Members KITADA, KAMO, KUBO, and OKADA attended all of the 15 meetings; Audit and Supervisory Board Member KIKUYAMA, who assumed office in June 2023, attended all of the 11 meetings.)

Main activities: In addition to decisions on audit policies and plans, consent to proposals for the appointment of Corporate Auditors, selection of full-time Corporate Auditors, determination of compensation for Corporate Auditors, appointment of an Accounting Auditor and consent to their compensation, and resolutions on routine matters such as the preparation of an audit report, the meeting reported and discussed matters such as prior understanding by the Accounting Auditor regarding non-guaranteed services, risk management, EMS audits, and confirmation of integrated reports. In addition, a questionnaire was administered to all corporate auditors to conduct a self-assessment of the status of audit activities.

(2) Corporate Auditors

[Audits]

- a. Audit and Supervisory Board Members attend Board meetings and other important meetings, and audit important management matters, business operations and business execution by exchanging opinions with Representative Directors and Outside Directors, and inspecting important agenda items and resolutions to be passed.
- b. They also audit business sites and subsidiaries each year together with the Corporate Auditors Office, report back to Representative Directors and provide feedback to executing departments.
- c. Further, they work closely with the internal Audit Department and accounting auditors, meet regularly with full time auditors of major subsidiaries, and strive to improve and strengthen Group auditing.

[Candidate of Audit and Supervisory Board Members]

- a. Audit and Supervisory Board Members are nominated from among persons with extensive knowledge and experience in various fields to conduct audits from a neutral and objective perspective and ensure sound management.
- b. Any person who does not qualify as highly independent within the definition of Standards for Independence of Outside Directors established by the Company shall not be nominated for Outside Audit and Supervisory Board Member.

[Internal Audits]

In accordance with the annual audit plan established by the Audit Department based on the results of the risk analysis, we conduct audits focusing on risks that may hinder the achievement of JAL Vision 2030, such as the risk of serious losses, the effectiveness and efficiency of operations, the reliability of financial reporting, compliance with laws and regulations, and asset preservation. As for the reliability of financial reporting, we evaluate the internal control reporting system for financial reporting under the Financial Instruments and Exchange Act as an independent organization under the direct control of the President.

From the perspective of auditing, the Audit Department, as the third defense line in the Three Lines of Defense model, places emphasis on checking the second defense line, such as the General Affairs Department, Risk Management Department, Legal Affairs Department, IT Planning and Management Department, and Accounting Department, utilizing the expertise, to verify whether they are supporting and monitoring Group organizations properly. In addition, internal audits are conducted annually on the risk management process for the Risk Management Department.

Results of each internal audit are reported to the President and information on important matters concerning internal control is provided to the Audit and Supervisory Board Members and Accounting Auditor to promote mutual coordination. The Board of Directors is regularly informed of the auditing results.

The Corporate Safety and Security Division, Engineering and Maintenance Division, and Audit Department are responsible for safety audits and maintenance audits which are conducted in compliance with laws and regulations on the air transport business.

[Accounting Audits]

Accounting audits are conducted by KPMG AZSA LLC at our request, according to audits required under the Companies Act and the Financial Instruments and Exchange Act. In addition to periodic audits, accounting issues such as the establishment, amendment and abolition of laws, regulations and rules are checked as necessary to achieve appropriate accounting work.

[Establishment of Various Committees]

We have established various committees under the Board of Directors in order to build a corporate governance system that demonstrates high management transparency and strong management oversight. A majority of the committee members are Outside Directors, ensuring independence from management.

(1) Corporate Governance Committee

The Corporate Governance Committee checks, whether activities comply with JAL Group Fundamental Policies of Corporate Governance, conducts analyses and evaluations and holds discussions to determine whether such activities contribute to sustainable growth and enhancement of medium- and long-term corporate value, and provides necessary findings, recommendations, and reports to the Board of Directors. The Corporate Governance Committee is comprised of the Board Chair and Outside Directors and is chaired by the Lead Independent Outside Director.

< In FY2024 >

Chairperson: KOBAYASHI Eizo

Board Member : AKASAKA Yuji, YANAGI Hiroyuki, MITSUYA Yuko

Observer : OKADA Joji (Independent Audit & Supervisory Board Member)

< In FY2023 >

Chairperson: KOBAYASHI Eizo

Board Member : UEKI Yoshiharu, YANAGI Hiroyuki, MITSUYA Yuko

Observer : OKADA Joji (Independent Audit & Supervisory Board Member)

Number of meetings : 4 meetings attended by all the members

Main activities : In regards to FY2023, other than reviewing the questionnaire in the Board Effectiveness Assessment, the Committee made a number of recommendations to improve the objectivity of the assessment, including the appointment, selection, and scope of use of external organizations.

(2) Nominating Committee

The description of the Nominating Committee is provided in II-1. Establishment of Voluntary Committees and Supplementary Explanation.

(3) Compensation Committee

The description of the Compensation Committee is provided in II-1. Establishment of Voluntary Committees and Supplementary Explanation.

(4) Personnel Committee

The Company discusses matters to be consulted by the Board of Directors regarding the appointment and dismissal of executive officers and reports the results to the Board of Directors. The Personnel Committee is comprised of the President and no more than four Directors elected by a resolution by the Board, the majority of members being Outside Directors. The President serves as Chair.

< In FY2024 >

Chairperson: TOTTORI Mitsuko

Board Member : SAITO Yuji, KOBAYASHI Eizo, YANAGI Hiroyuki, MITSUYA Yuko

< In FY2023 >

Chairperson: AKASAKA Yuji

Board Member SHIMIZU Shinichiro, KOBAYASHI Eizo, YANAGI Hiroyuki, MITSUYA Yuko

Number of meetings : 1 meetings attended by all the members

Main activities: the committee discussed matters to be reported to the Board of Directors, and the training of candidates for Executive Officer positions and the ideal new execution structure.

(5) Officers Disciplinary Committee

When taking disciplinary action against Directors and Executive Officers, the Officers Disciplinary Committee makes decisions. The Officers Disciplinary Committee is comprised of the President and no more than four Directors elected by a resolution by the Board, the majority of members being Outside Directors. The Chair is elected from among Outside Directors. Any submission of proposals to the general meeting of shareholders concerning the dismissal of a Director requires the approval of the Board of Directors.

< In FY2024 >

Chairperson: YANAGI Hiroyuki

Board Member : TOTTORI Mitsuko, SAITO Yuji, KOBAYASHI Eizo, MITSUYA Yuko

< In FY2023 >

Chairperson: YANAGI Hiroyuki

Board Member : AKASAKA Yuji, SHIMIZU Shinichiro, KOBAYASHI Eizo, MITSUYA Yuko

Number of meetings : 0

In addition to the above voluntary committees, the Lead Independent Outside Director organized a few Independent Outside Audit and Supervisory Board Member Opinion Exchange Meetings, comprising only Outside Directors and Outside Audit and Supervisory Board Members, to strengthen the network between Outside Directors.

[Information Disclosure]

In order to remain a company trusted by society, the JAL Group strives to enhance and improve the quality of disclosures to achieve transparency and better dialogue with a wide range of stakeholders.

When making disclosures, we strive to provide complete information and engage in constructive dialogue with shareholders, investors and other stakeholders.

For this purpose, in order to make the JAL Group's corporate stance easily accessible, various information is available on the JAL website, including JAL REPORT, an integrated report on finance and ESG, JAL Group Safety Report, which summarizes JAL Group's stance and initiatives on safety, and information on the

corporate philosophy, company profile, safety and quality, sustainability and investor relations. We also make disclosures about our business plans and financial results in a timely, fair and appropriate manner.

(<https://www.jal.com/en/sustainability/governance/information-disclosure/>)

[JAL Philosophy Education]

The President conducts JAL Philosophy Education for JAL Group Directors including the President, and employees in order to penetrate JAL Philosophy into JAL Group.

[Bodies directly controlled by the President]

We have established the following organs concerning governance.

(Executive Management Council)

The Executive Management Council is an organ established by the Company for the purpose of contributing to appropriate and flexible decision-making by the Board of Directors and the President. The committee will deliberate over important issues requiring a resolution of the Board of Directors and matters requiring approval by the President that need to be confirmed by the Executive Management Council before presenting these issues to the Board or to the President.

< In FY2023 >

Number of meetings : 37 meetings

Main activities: Discussed important management issues to be submitted to the Board of Directors.

(Group Safety Enhancement Council)

To secure flight safety and promote safety management of the entire JAL Group, the Group Safety Enhancement Council makes decisions on important safety management policies, confirms the status of and regularly reviews the Safety Management System, and decides actions to be taken concerning safety in daily operations, etc., according to the JAL Group Corporate Policy and company policies to secure flight safety and promote safety management of the entire JAL Group.

< In FY2023 >

Number of meetings : 12 meetings

Main activities: In addition to understanding the JAL Group's overall aviation safety policy and safety management system, we discussed how to respond to aviation accidents and other incidents during the fiscal year under review. In the event of an air accident, the JAL Group will promptly report the incident to the Board of Directors.

(Group Risk Management Council)

To conduct overall risk management and achieve stable JAL Group management, the Risk Management Council establishes the fundamental policy on risk management, conducts regular risk assessment, establishes countermeasures, and manages business continuity, etc.

< In FY2023 >

Number of meetings : 2 meetings

Main activities: Review of priority risks, status of response to priority risks, and discussion on priority issues such as cyber security and response to the anticipated Tokyo Metropolitan Earthquake. We reported to the Board of Directors twice in total.

(Sustainability Promotion Council)

The Sustainability Promotion Council reviews progress management of important issues and annual targets, management of risks and opportunities of climate change, the environmental management system, and human rights due diligence in order to promote ESG management for achieving the SDGs, build a better future where everyone can feel fulfilled and hopeful as stated in JAL Vision, and work with society to achieve sustainable development.

< In FY2023 >

Number of meetings : 4 meetings

Main activities: Disclosure on TCFD/TNFD, DJSI assessment results and review, ESG assessment summary, recap of key issues, efforts to create relationships and societal connections through air transportation, and addition/revision of goals were discussed and reported to the Board of Directors a total of four times.

(Customer Value Creation Council)

Aiming at resolving important issues related to customer value for all customers and society, the initiatives and communications of each business with customer value as the starting point will be monitored. Discussings will take place to reach decisions that will resolve the issues.

< In FY2023 >

Number of meetings : 2 meetings

Main activities: Discussed future directions for further improvement of CX, including co-creation of customer experiences with customers.

(JAL Philosophy Council)

The JAL Philosophy Council establishes the fundamental policy, and draws up, enforces, and manages progress of measures to promote penetration of the JAL Philosophy.

< In FY2023 >

Number of meetings : 1 meetings

(Group Business Performance Reporting Meeting)

The Group Business Performance Reporting Meetings are aimed at sharing earnings of each Group company and each division in the JAL Group and considering ways to improve business performance.

< In FY2023 >

Number of meetings : 12 meetings

(Group Management Council)

The Group Management Council conducts deliberation to check progress of important management issues facing the JAL Group and establish measures to address these issues, and reports information of significant importance.

< In FY2023 >

Number of meetings : 14 meetings

[Overview of liability limitation agreement]

In accordance with Article 427, Paragraph (1) of the Companies Act and the Company's Articles of Incorporation, the Company has entered into an agreement with each Outside Director and Audit & Supervisory Board Member, by which they are bound to be liable for damages specified in Article 423, Paragraph (1) of the Companies Act, to the extent of the amount of the minimum liability specified in Article 425, Paragraph (1) of the said Act.

[Summary of Directors and Officers Liability Insurance]

The JAL Group has concluded a Directors and Officers Liability Insurance Policy with an insurance company as stipulated in Article 430-3, Paragraph 1 of the Companies Act to insure Directors, Audit and Supervisory Board Members, and Executive Officers. The JAL Group will cover all premiums. The insurance policy covers compensation for damages and litigation costs incurred by the insured due to claims for damages arising from acts committed by the insured in the course of their duties. However, coverage for criminal or intentionally illegal acts by the insured are excluded as a measure to ensure that the insured appropriately performs their duties.

3. Reasons for Adoption of Current Corporate Governance System

We have established a system to establish corporate governance that results in high management transparency and high management monitoring, while at the same time engaging in speedy and appropriate management decision making, and enhance corporate value and achieve accountability.

III. Implementation of Measures for Shareholders and Other Stakeholders

1. Measures to Vitalize the General Shareholder Meetings and Smooth Exercise of Voting Rights

	Supplementary Explanations
Early Notification of General Shareholder Meeting	A convocation notice is sent three weeks before the meeting in order to provide shareholders with sufficient time to examine the agenda.
Scheduling AGMs Avoiding the Peak Day	The meeting is scheduled to avoid dates that other companies hold shareholder meetings to enable as many shareholders to attend.
Allowing Electronic Exercise of Voting Rights	We provide Internet Voting.
Participation in Electronic Voting Platform	We participate in electronic voting platform for institutional investors.
Providing Convocation Notice in English	The convocation notice is prepared in English and posted on our website to enable shareholders to exercise their voting rights smoothly.

2. IR Activities

	Supplementary Explanations
Prepare and publish the Disclosure Policy	The Disclosure Policy was prepared and posted on our website. (https://www.jal.com/en/sustainability/governance/information-disclosure/)
Regular Investor Briefings for Individual Investors	We report the Company's financial results to individual shareholders with attendance of the IR Director, and arrange tours of our facilities several times a year.
Regular Investor Briefings for Analysts and Institutional Investors	We hold investor briefings by the Representative Directors and IR Director in a venue accommodating 300 people when announcing our quarterly results and management plan. *Currently Held online due to COVID-19
Regular Investor Briefings for Overseas Investors	We report the Company's financial results to overseas investors with attendance of the Representative Directors and IR Director several times a year.
Posting of IR Materials on Website	We post a summary of financial results, securities report, and material for analysts and institutional investors on our website. (http://www.jal.com/en/investor/library/)
Establishment of Department and/or Manager in Charge of IR	Director in charge: SAITO yuji, Executive Managing Director YUMISAKI masao, Senior Vice President, Finance & Accounting Division Department in charge: Finance Department

3. Measures to Ensure Due Respect for Stakeholders

	Supplementary Explanations
Stipulation of Internal Rules for Respecting the Position of Stakeholders	As required by laws and ordinances, all our employees are familiar with the JAL Group Corporate Policy, JAL Philosophy, and the JAL Group Code of Conduct 'Commitment to Society.' Furthermore, our website publishes safety initiatives, press releases, various results, etc. We will continuously build a relationship of trust, while valuing dialogue with shareholders.
Implementation of Environmental Activities, CSR Activities etc.	<p>“JAL Group Basic CSR Policy”</p> <p>The JAL Group will strive to meet the expectations of society, address social issues, and pass on a better society to future generations through its core air transport business as the 'Wings of Japan'.</p> <p>Our CSR activities will be promoted through the implementation of JAL Philosophy in order to realize the JAL Group Corporate Policy. (https://www.jal.com/en/sustainability/policy/)</p> <p>“JAL Group Environmental Guidelines (excerpts)”</p> <p>The environment must be protected to justify existence in all living being on Earth. To realize their Commitment to Society by Passing on the Precious Earth to the Next Generation as stated in their Code of Conduct, JAL Group has configured a promotion plan under the below policy to engage in environmental conservation as a member of society and to prevent any events that should occur. (https://www.jal.com/en/sustainability/environment/environment-management/policy/)</p> <ul style="list-style-type: none"> -Regulatory Compliance -Efforts to Reduce Environmental Impact <ul style="list-style-type: none"> (a) Address to climate change (b) Effective use of limited resources (c) Prevention of environmental pollution (d) Noise Reduction (e) Biodiversity conservation -Development of Environmental Technology -Raise Awareness -Disclose Information -Continuous Improvement Policy <p>We pledge the JAL Group Environmental Policy based on identified critical items to resolve environmental issues. Based on the environmental policy, we will set environmental goals from a medium- to long-term perspective and work together with various stakeholders to achieve them. We also promote appropriate education and training for our employees to help them understand the impact of their business activities on the environment. (https://www.jal.com/en/sustainability/environment/environment-management/)</p>
Development of Policies on Information Provision to Stakeholders	To enable our stakeholders to easily access the Company's basic stance, various information such as the Fundamental Policies of Corporate Governance, Corporate Policy, management strategies, and management plan, is posted on our website. We also issue an integrated report, “JAL Report,” each year. We will continue to further improve disclosures in quantity and quality to realize constructive dialogue with markets and investors.
Other	In FY2023, the JAL Group was ranked No. 1 in the transport sector for Excellence in Corporate Disclosure for the fifth time in the past six years since 2018, in recognition of our stance on disclosure by the Securities Analysts Association of Japan.

Supplementary Explanations

Furthermore, JAL Group's Integrated Report, JAL Report 2023, received an award for excellence at the Nikkei Integrated Reporting Awards 2023 hosted by Nikkei Inc. in recognition of its advanced disclosure. This is the third consecutive year that the report received the award, following the Grand Prix E (Environment) Award in FY2022.

In addition, for the second year in a row, the JAL Group was selected as an Environmentally Sustainable Company at the 5th ESG Finance Awards Japan, sponsored by the Ministry of the Environment, on the grounds that the level of disclosure met certain standards.

“Efforts to Improve Corporate Value and Create a Sustainable Society”

In JAL Vision 2030, the JAL Group pledged to "create a future where everyone can feel abundance and hope" in order to enhance corporate value and realize a sustainable society.

With a view to achieving the SDGs in 2030 and carbon neutral in 2050, the Group will identify issues in the 4 areas of the environment, People, communities, and governance, resolve social issues through business activities, and aim to realize a sustainable society.

In addition, in promoting ESG management, JAL Group Code of Conduct "Commitment to Society" is constantly educating all employees to ensure that ESG management is thoroughly understood and complied with.

(a) Environment

In order to pass on the rich Earth to the next generation, we will promote environmental preservation initiatives for each of the following issues.

- Address to Climate Change
- Effective Use of Limited Resources
- Prevention of Environmental Pollution
- Noise Reduction
- Biodiversity Conservation

Details of initiatives related to the Environment are disclosed on the JAL website.

(<https://www.jal.com/en/sustainability/environment/>)

(b) People

In order to contribute to the creation of a society where everyone can shine safely, securely and lively, we will promote initiatives for each of the following issues.

- Pursuit of Customer Satisfaction
- Respect for Human Rights
- Human Resources Development
- Diversity, Equity & Inclusion
- Workstyle Innovation
- Wellness
- Accessibility
- Preventing the Infection Spread

Details of initiatives related to People are disclosed on the JAL website.

(<https://www.jal.com/en/sustainability/human/>)

(c) Communities

In order to contribute to the development of local communities as social infrastructure, we will promote initiatives for each of the following issues.

- Route Network Expansion
- Promotion of Inbound Tourism

Supplementary Explanations	
	<ul style="list-style-type: none"> - Regional Revitalization - Convenience in Mobility and Daily Life - Disaster Restoration Assistance - Community Relations <p>Details of initiatives related to Communities are disclosed on the JAL website. (https://www.jal.com/en/sustainability/community/)</p> <p>(d) Governance</p> <p>In order to implement highly transparent management, we will promote initiatives for each of the following issues.</p> <ul style="list-style-type: none"> - Robust Risk Management (strengthening BCM) - Fair Business Practices (compliance) - Responsible Procurement - Disclosure <p>Details of initiatives related to Governance are disclosed on the JAL website. (https://www.jal.com/en/sustainability/governance/)</p>

IV. Matters Related to the Internal Control System

1. Basic Views on Internal Control System and the Progress of System Development

[Development of the Internal Controls System (Fundamental Policies)]

To provide unparalleled service to the customers, increase corporate value, and contribute to the betterment of society, the JAL Group has established the Fundamental Policies of Corporate Governance. To increase its effectiveness, we have established rules and organizations concerning the following systems and matters, and ensure that business operations are conducted appropriately in accordance with the Companies Act and Companies Act Enforcement Regulations. We evaluate and verify development and operation of the internal control system and implement corrective action when correction is required.

01. We have developed a system to ensure compliance with the Articles of Incorporation and laws and regulations governing the execution of the duties of directors.

1. We have established JAL Philosophy as behavioral guidelines of the Company. Directors and employees are encouraged to abide by these practices.

2. The Board of Directors decides the Fundamental Policies on the Internal Controls System and the General Affairs Department promotes development of the internal control system.

3. The Risk Management Department supervises compliance operations and monitors development and operation of relevant company regulations.

4. We have developed an audit system to ensure the duties of directors and employees are executed in compliance with applicable laws and regulations.

02. We have developed a system concerning the preservation and management of information concerning the execution of the duties of directors.

We preserve and manage information concerning the execution of duties of directors in compliance with applicable laws and regulations and company regulations.

03. We have developed regulations and other systems for loss control.

In order to manage risks to the JAL Group, we have established the Group Safety Enhancement Council, the Group Risk Management Council, and other committees and appropriately manage risks and proactively prevent loss. Further, we have established Guidance for Internal Control and other guidelines and the General Affairs Department continuously monitors the appropriateness of duties.

04. We have developed a system to ensure that the duties of directors are executed efficiently.

1. We hold ordinary Board of Directors meetings once a month and extraordinary meetings when it is necessary to make important decisions regarding group management policies and plans. In addition, to ensure the duties of directors are executed efficiently, we have established meeting structures such as the Executive Management Council and the Group Earnings Announcement Session.

2. We have defined administrative authority, authority of managerial posts, division of duties, etc. in accordance with company regulations, and have segregated authority in order to ensure that duties are executed efficiently.

05. We have developed a system to ensure that duties in the Company are executed appropriately.

1. We have established JAL Group Business Management Regulations to ensure that each subsidiary has established a system to carry out management in a fair and efficient manner in accordance with JAL Philosophy. The General Affairs Department has also established Guidance for JAL Group Internal Control and continuously monitors the appropriateness of duties.
2. We have developed a system to report matters concerning the execution of the duties of directors of subsidiaries, etc. to the Company.
3. We have developed regulations and other systems for risk management of losses of subsidiaries.
4. We have developed a system to ensure the duties of directors of subsidiaries, etc. are executed efficiently.
5. We have developed a system to ensure that directors, etc., and employees of subsidiaries execute duties in compliance with applicable laws, regulations and the Articles of Incorporation.
06. We have developed a system concerning employees in case corporate auditors require the assignment of employees to support their duties, a system concerning independence of such employees from directors, and a system to ensure that instructions by corporate auditors to those employees are effective.
07. We have developed a reporting system to Corporate Auditors
 1. We have developed a reporting system to Corporate Auditors for Directors and employees.
 2. We have developed a reporting system to Corporate Auditors for Directors, Corporate Auditors, employees or any persons receiving a report from them.
 3. We have developed a system to ensure that persons who report are not subjected to disadvantageous treatment as a result of reporting.
08. We have developed a system for advance payment or repayment of costs arising from the execution of the duties of Corporate Auditors and the policy for processing of costs or liabilities arising from the execution of other duties.
09. We have developed other systems to ensure that audits by the Audit and Supervisory Board or Corporate Auditors are executed effectively.

[Operation of the Internal Controls System]

01. We have developed a system to ensure compliance with the Articles of Incorporation and laws and regulations governing the execution of the duties of directors and employees.

1. We established the JAL Philosophy and the JAL Group Code of Conduct, "Commitment to Society," and permeated and put them into action throughout the Group through education and other means.
 2. We established Fundamental Policies on the Internal Controls System and Guidance for JAL Group Internal Control, and develop, operate and evaluate internal controls in accordance with the Companies Act and Financial Instruments and Exchange Act.
 3. We established our hotline for whistleblowers for public interest including a hotline accessible in both Japanese and English (for internal and external use), which operates 24 hours a day, 365 days a year, and put in place a system that enables early detection of and quick response to incidents etc., related to compliance by regularly providing employees with information on the hotline. In light of the revision to the Whistleblower Protection Act in 2022, we have improved the environment related to whistleblowing and strengthened systems to detect risks before they occur.
 4. We inspect attributes of new business partner candidates and conduct a review every three years as a regular inspection to verify whether there are any changes in attributes and/or information.
 5. We explain legal considerations to Directors to ensure that they are aware of their duties, authorities, and responsibilities including the fiduciary duty of loyalty and the duty of care as a prudent manager. We provide education courses for employees, etc. to ensure that they acquire the necessary knowledge to perform their duties.
 6. The Audit Department inspects the development and operation of the internal controls system stipulated by Guidance for JAL Group Internal Control according to the fiscal year plan, reports audit results of each audit to management, and regularly reports progress of audits and audit results to Audit and Supervisory Board Members. The Audit Department regularly reports audit results to the Board of Directors.
 7. The Maintenance Audit Department conducts inspections to verify that maintenance work is performed according to laws, regulations, and internal rules.
 8. The Safety Audit Department checks safety-related deliberations, engagement, instructions, and other operations regarding management by attending Group Safety Enhancement Council meetings and checking materials submitted to the meetings according to the Safety Audit Plan. It also conducts internal audits of production divisions, the Corporate Safety and Security Division, and airports.
02. We have developed a system concerning the preservation and management of information concerning the execution of the duties of directors.
Information related to decision-making (documents and minutes) of Board meetings and other important meetings and Ringi documents are prepared, stored and managed in accordance with laws, regulations, and internal rules.
03. We have developed regulations and other systems concerning risk management of losses.
1. In order to prevent the risk of losses from occurring, we operate and implement the PDCA cycle of preventive risk management. The results of these efforts are reported to the Group Risk Management Council and the Board of Directors for management evaluation.
 2. To improve the effectiveness of our business continuity plan, we established a branch office of the Operations Control Center in Osaka, and have been utilizing the knowledge of outside experts in expanding the plan and conducting training in preparation for contingencies such as an earthquake directly hitting the Tokyo area. In addition, we

conduct periodic training as well as regular JAL group wide reporting drills to raise awareness of risk management and check the situation of staff quickly using a safety confirmation system.

3. We continuously train care givers who take care of victims and bereaved families, and Accident Command Board members to conduct risk management quickly and accurately in case of an aircraft accident or incident.

04. We have developed a system to ensure that the duties of directors are executed efficiently.

Through processes such as evaluation of effectiveness of the Board of Directors, we review administrative authorities and board operation methods every fiscal year and develop an environment for strategic discussions to achieve sustainable growth. In order to make appropriate and quick management decisions, we established the Management Committee and Group Earnings Announcement Sessions directly under the President. In addition, to advance ESG management toward achieving the SDGs, we established the Sustainability Promotion Council chaired by the President. In FY2023, the Customer Value Creation Council was established to solve fundamental issues related to customer value.

05. We have developed a system to ensure that duties in the Company are executed appropriately.

1. We have established JAL Group Corporate Management Regulations and Guidance on JAL Group Internal Control, with the General Affairs Department monitoring the appropriateness of business operations.

2. Implementation of initiatives aimed at achieving targets are monitored through expanded Business Performance Reporting Meetings, and guidance and support are provided.

3. We coordinate with the General Affairs Department of each JAL Group company daily and regularly, share information, and provide guidance and support, which contribute to strengthening the risk management system.

4. A basic agreement is signed between the Company and each Group company to clarify the basic relationship between the two companies with regard to business operations.

5. We guide directors and others involved in the management of group companies to reaffirm their own responsibilities and roles and to ensure fair and efficient management.

6. The Audit Department conducts appropriate audits of group companies, and since FY2022, the Board of Directors has been regularly informed of the results of these audits.

7. The Maintenance Audit Department conducts inspections at each subsidiary to verify that maintenance work is performed according to laws, regulations, and internal rules.

8. The Safety Audit Department checks safety-related deliberations, engagement, instructions, and other operations by management by attending Group Safety Enhancement Council meetings in accordance with the Safety Audit Plan and checking materials submitted to the meetings. It also conducts internal audits of production divisions, the Corporate Safety and Security Division, and airports.

06. We have developed a system concerning employees in case Audit & Supervisory Board Members require the assistance of employees, a system concerning independence of such employees from directors, and a system to ensure that instructions by Audit & Supervisory Board Members to those employees are effective.

We established an organization independent from directors and assign employees to serve as Audit & Supervisory Board Members to increase effectiveness of audits by Audit & Supervisory Board Members and execute audit duties smoothly. They receive work instructions and orders from and are appointed with the consent of Audit & Supervisory Board Members.

07. We have developed a system concerning reports, etc. to Audit & Supervisory Board Members.

1. Audit and Supervisory Board Members attend Board meetings and other important meetings, read Ring documents requiring approval by executive officers and directors, and audits the status of execution of duties relating to our company through interviews with the President, hearings with related departments, and visits to internal departments. Issues identified through audits are reported to the Audit and Supervisory Board and the Board of Directors twice a year, and ensuing action is confirmed."
2. Audit & Supervisory Board Members exchange opinions and information regularly with Audit & Supervisory Board Members of Group companies and visit them.
3. Audit & Supervisory Board Members check the development of systems to ensure that persons who have reported to them do not receive disadvantageous treatment for making such reports.

08. We have developed a system for advance payment or repayment of costs arising from the execution of the duties of Audit & Supervisory Board Members and the policy for processing of costs or liabilities arising from the execution of other duties.

Necessary expenses for audits by Audit & Supervisory Board Members are paid for appropriately.

09. We have developed other systems to ensure that audits by the Audit & Supervisory Board or Audit & Supervisory Board Members are executed effectively.

Audit & Supervisory Board Members exchange opinions and information regularly with the Audit Department and auditing company and increase effectiveness of audits.

2. Basic Views on Eliminating Anti-Social Forces

The JAL Group and its special interest groups, shareholders, business partners, etc. have no relations whatsoever with anti-social forces. We respect the “Manual for Implementing Charter of Corporate Code” announced by Nippon Keidanren (Japan Business Federation)(revised April 2007), “Guideline for How Companies Prevent Damage from Anti-Social Forces” (agreed upon at a meeting in June 2007 of cabinet ministers responsible for anti-crime measures) and Organized Crime Exclusion Ordinances established based on these guidelines (enforced in all prefectures in October 2011) as our fundamental principle, and have built and operate a system to exclude anti-social forces accordingly. JAL Group’s policy, standards, etc. are established according to Company Policy & Regulations for Correspondence to Anti-social Forces, which is repeatedly disseminated and reinforced at major internal meetings and staff training.

We have distributed Guidelines for Correspondence to Anti-social Forces to every JAL Group company and every department to disseminate information on excluding anti-social forces. Furthermore, we have posted information on ways to deal with anti-social forces on our Intranet to enable employees to respond appropriately when approached by them. We screen business parties with whom we start new business deals prior to the signing of a contract to confirm that no anti-social forces are involved. An “article on exclusion of anti-social forces” is included in agreements and we continuously screen business partners even after the commencement of business.

Through such measures, our employees are aware that continuous efforts to exclude anti-social forces are extremely important.

【Timely Disclosure System】

(Attachment) Approach to Sustainability (Supplemental Principle 3-1-3)

The JAL Group's approach to sustainability and its initiatives are as follows:

(1) Sustainability in General

(a) Governance

The Group's Board of Directors deliberates and decides important sustainability-related matters. The Sustainability Promotion Council, chaired by the President, conducts a management review of the following items.

- Determining key issues and annual targets for efforts to achieve sustainability, and monitoring and evaluation of progress
- Determining responses to climate change risks and opportunities
- Monitoring and evaluation of Environmental Management System (EMS)
- Monitoring and evaluation of human rights due diligence

The Sustainability Promotion Committee, a meeting body under the Sustainability Promotion Council chaired by Senior Vice President of the General Affairs Division, holds monthly meetings to confirm and discuss the progress of initiatives.

In FY2023, the committee reported four times to the Board of Directors of the items discussed such as information disclosure on the Task Force on Climate-Related Financial Disclosures (TCFD), the Task Force on Natural-Related Financial Disclosures (TNFD), the assessment results and reviews of the Dow Jones Sustainability Indices (DJSI), the ESG assessment summary, recap of key issues, efforts to create relationships and societal connections through air transportation, and additional or revised goals.

(b) Strategy

In May 2021, the JAL Group formulated and announced JAL Vision 2030 with safety and peace of mind, and sustainability as keywords, and the JAL Group Medium Term Management Plan for FY2021-2025 to realize this vision. In addition, in the Rolling Plan 2023, we positioned ESG strategies as the top-level strategy to realize value creation and growth. The story of value creation aims to solve social issues, such as the decline of local communities and the decline of happiness, by creating sustainable human, commercial, and logistics flows and related populations on the premise of reducing environmental impact, and through the power of air transportation and connection, which is being reevaluated after the COVID pandemic.

In FY2023, we reviewed our materiality issues so as to create social and economic value and solve social issues through air transportation and connections created through our business. The key issues were previously four areas and 22 issues to be addressed mainly in the full-service carrier (FSC) business domain with the aim of contributing to the achievement of the 17 goals and 169 targets of the SDGs. However, the number was revised to eight materiality issues as a means to better link them to the creation of economic value in all business areas of the JAL Group, and not just aviation. Furthermore, human resources, or human capital, the greatest strength of the JAL Group, has been defined as a materiality issue, because improving the value creation ability and productivity of all employees is a key management issue.

In addition, in the Medium-Term Management Plan-Rolling Plan (MRP) 2024 formulated on March 21, 2024, we set a goal of increasing the total volume of relationships and connections by 1.5 times by 2030 by quantifying the number of people in the community and improving the level of community relations and working to continuously improve them. Through the promotion of this ESG strategy, we will enhance our social and economic value and achieve an increase in corporate value.

■ Eight Key Materiality Issues Addressed by the JAL Group

(c) Risk Management

The JAL Group defines risk as an event or action that interferes with the achievement of the mission, objectives, and goals of the organization. Risk surveys and assessments are performed every six months. The Sustainability Promotion Council deliberates risk management policies and necessary solutions for overall sustainability governance, including the environment. The details are reported to the Board of Directors.

(d) Indicators and Targets

Key initiatives based on the eight materiality issues include actions to create air transportation and connections through business activities from the perspectives of increasing options, eliminating constraints, and creating objectives. Indicators and targets are set for global environmental conservation initiatives including GX strategies to pass on the precious Earth to the next generation, human capital management pursued in the human resources strategy, and governance as the foundation for value creation to drive ESG management. It is also possible to set quantitative numerical targets, and we have set items to promote with intention. Please refer to our website at the below link.

(<https://www.jal.com/ja/sustainability/initiatives/>)

In particular, the following indicators are management targets for sustainability in the JAL Group Medium Term Management Plan for FY2021-2025.

- Environment : Reduce CO₂ emissions (total emissions less than 9.09 million tons)
Reduce single-use plastics (cabins and lounges: new petroleum-derived plastics were eliminated; airport and cargo: 100% revision to environmentally friendly materials)
- Community : Increase domestic passenger and freight traffic by 10 percent compared to FY2019
- People : Promotion of DEI (proportion of women managers in the Group: 30 percent)

(2) Addressing Climate Change

(a) Governance

The JAL Group's Board of Directors demonstrates a strong supervisory function through the periodic reporting (four times in FY2023) on the execution of initiatives concerning climate change and biodiversity. In the execution, the Sustainability Promotion Council, chaired by the President, formulates basic policies, sets important targets, and manages progress, and deliberates and decides on policies to deal with issues. The Sustainability Promotion Committee, chaired by the Senior Vice President of the General Affairs Division, deliberates individual issues identified through the EMS and reports to the Sustainability Promotion Council. The Medium-Term Management Plan incorporates responses to climate change into its management strategy and defines the eight materiality issues for sustainability in general to address social issues through business. With a strong commitment to achieve sustainable business operations and corporate value improvement through steady efforts to address these issues, we reflect external ESG ratings and CO₂ reduction targets in executive compensation as indicators.

Issues Presented and Reported at the Board of Directors and the Sustainability Promotion Council in FY2023

- Progress in efforts to address climate change (formulation of targets and annual results)
- Information disclosure in line with TCFD recommendations
- GX Strategy to achieve Net Zero CO₂ Emissions by 2050

(b) Strategy

Recognizing that addressing climate change is an important issue for the sustainability of society, in 2018 the JAL Group participated in the Support Project for Scenario Analysis of Climate Risks and Opportunities in line with the TCFD led by the Ministry of the Environment of Japan. We have been working with the International Energy Agency (IEA) and the Intergovernmental Panel on Climate Change (IPCC) in the project to consider a society in 2030 based on two scenarios (RCP8.5 (Note 1) and RCP2.6 (Note 2) of an average temperature increase of less than 4°C and less than 2°C by the end of this century. In addition, in June 2020, we declared our goal of achieving net zero CO₂ emissions by 2050 as a responsibility of air transportation infrastructure operator, in order to steadily promote various initiatives, including the reduction of CO₂ emissions. Subsequently, we created a specific roadmap in consideration of risks and opportunities based on the IEA SDS scenario (Note 3), among others, which was reflected in the JAL Group Medium Term Management Plan for FY2021-2025 released in 2021 and the JAL Group Medium Term Management Plan-Rolling Plan (MRP) released in 2022. Furthermore, in the Rolling Plan for 2023, we formulated the GX Strategy based on the premise of a global 1.5°C scenario toward net zero CO₂ emissions by 2050.

In addition to the above, in February 2021, we announced our support for the recommendations of the TCFD and set a target of net zero CO₂ emissions by 2050, which is the same level as the Science Based Targets Initiative (SBTi) and is a global framework we are striving to disclose information.

In 2022, the General Assembly of the International Civil Aviation Organization (ICAO) adopted long-term targets for the international aviation sector to become carbon neutral by 2050 and a revision of CORSIA (Note 4), a framework for reducing CO₂ emissions. It is possible that CO₂ emission regulations imposed on international aviation are likely to advance further in the future.

In this environment, we will accelerate our existing efforts to achieve our reduction targets by renewing our fleet to fuel-efficient aircraft, making efforts in daily operations, known as JAL Green Operations, and utilizing Sustainable Aviation Fuel (SAF). As stated in the GX strategy in the 2024 MRP, JAL will renew 76 percent of its fleet with fuel-efficient aircraft by FY2030, and will expand SAF procurement points in Japan and overseas to make further use of SAF. In addition, we will deepen partnerships with domestic SAF manufacturers for the start of production and mass production of domestically produced SAF. Furthermore, we will procure the necessary carbon credits through emissions trading at the appropriate time to meet our targets and CORSIA. In the mid- to long-term, we will actively utilize new technologies such as synthetic fuels and negative emissions, such as the removal and recovery of CO₂, that are under development around the world.

JAL Group's Road Map Towards Net Zero CO₂ Emissions

Conditions for Creating Scenarios to Achieve Net Zero CO₂ Emissions by the JAL Group

Based on the 1.5°C scenario, the JAL Group announced that a target was set for Net Zero CO₂ Emissions by 2050 at its shareholders' meeting in June 2020. The below roadmap has been created considering risks and opportunities based on scenarios such as the IEA SDS scenario.

With regard to the reduction of CO₂ emitted by JAL Group's aircraft, we have studied scenarios for CO₂ reduction by 2050, referring to the latest study materials of ICAO and International Air Transport Association (IATA) and scenarios by Air Transport Action Group (ATAG) (Note 5) based on the 1.5°C scenario. We are discussing the future challenges and measures to be taken.

In preparing scenarios, we set the growth of Revenue Ton-Kilometers (RTK) based on total international and domestic passenger demand respectively, calculated the total volume of CO₂ emissions up to 2050, and reflected the impact in each initiative.

(Note 1) RCP8.5 Scenario: High-level reference scenario in the IPCC Fifth Assessment Report (scenario corresponding to the maximum greenhouse gas emissions in 2100).

(Note 2) RCP2.6 Scenario: The lowest stabilization scenario in the IPCC Fifth Assessment Report (the lowest emissions scenario developed with the goal of limiting future temperature increase to below 2°C).

(Note 3) IEA SDS Scenario: A Sustainable Development Scenario, a pathway to fully achieve the Sustainable Development Goals of the IEA.

(Note 4) Carbon Offsetting and Reduction Scheme for International Aviation: A scheme under which airlines in participating countries are obliged to offset emissions in excess of the baseline for international flights of the entire airline industry. "Emissions in 2019" was revised to "not to exceed 85 percent of the 2019 level" and the baseline was deepened by 15 percent.

(Note 5) ATAG - Global Alliance to Promote Sustainability in the Aviation Industry

Climate change will have a negative impact on the air transport business, which is based on the premise of operating in a society that is safe with peace of mind. As a result, it may pose an enormous risk to business continuity.

In addition, the response to climate change, including the reduction of CO₂ emissions by airlines, may have various financial impacts, such as upgrading to fuel-efficient aircraft and responding to carbon pricing. The JAL Group organizes and examines these factors that affect its business in accordance with the TCFD classification of risks and opportunities related to climate change and lists them in the table below. The categories of timing and the impact at the time of event are as specified on the right.

The following was reviewed at the Board of Directors meeting on August 1, 2023.

Classification	Time of Impact
Short-term	FY2023 to FY2025 (the period covered by the current medium-term management plan)
Medium-term	FY2026 to FY2030 (the period up to JAL Vision 2030)
Long-term	FY2031 to FY2050 (the period to achieve Net Zero CO ₂ Emissions)

Classification	Revenue or Cost Impact at the Time of Event (Annual)
Small	Less than 3 billion yen
Medium	3 billion yen to less than 30 billion yen
Large	30 billion yen or more

Risk

Types of Risk	Risks	Period of Event	Impact of Risk	Risk Mitigation Actions
Transition Risks ✓ Policies and regulations ✓ Technology ✓ Market ✓ Evaluation	Emissions Trading Increase in credit cost by stronger national CO ₂ emission regulations	Short to Long	Small to Medium	<ul style="list-style-type: none"> Procuring credits meeting CORSIA eligibility criteria at a stable and reasonable price <Overseas> Participation in rulemaking (ICAO, IATA) <Japan> Public-Private Partnership for Rulemaking through the Scheduled Airlines Association of Japan
	SAF Shortages in supply due to delays in the development, manufacture and dissemination of SAF and bias in supply areas Impact of high SAF and hydrogen fuel prices on earnings	Medium	Medium	<ul style="list-style-type: none"> Long-term, price-advantaged SAF procurement from manufactures in individual companies or alliances Active involvement in domestic SAF production and expansion to SAF procurement sites Request for support related to the supply and manufacture of SAF to the government and energy industries (At the Public-Private Councils for the promotion of SAF deployment, JAL participated in discussions on stable production and sharing of SAF, as well as on making it less expensive, and a "draft regulatory and support package" was presented.)
	Aircraft Delay in the development of aircraft using new technologies such as hydrogen and electric power and in the development of airport infrastructure ¹	Long	Medium	<ul style="list-style-type: none"> Cooperation with aircraft and engine manufacturers Participated in the "Public and Private Sector Consultation on New Technologies for Decarbonization of Aircraft" with the government and other relevant parties to formulate the "New Technology Roadmap for Decarbonization of Aircraft (draft)"
	Demand Declining in customer preference due to delayed response to climate change and slowdown in domestic demand for air transport due to a modal shift	Medium to Long	Small to Medium	<ul style="list-style-type: none"> Advocating the Value of Aircraft Mobility after Thorough Efforts to Reduce CO₂ Building momentum by disseminating the progress of sustainable flights and SAF procurement in a planned manner, participating in symposiums, and strengthening the dissemination of environment-friendly measures
Physical Risks ✓ Acute ✓ Chronic	Operation Impacts of the decrease in the number of passengers and the increase in flight cancellations caused by climate disasters due to the intensification of extreme weather events and changes in precipitation and climate patterns	Short to Long	Medium	<ul style="list-style-type: none"> Strengthen crisis management capabilities and enhance BCP in response to disasters
	Demand Impact of the outbreak of a pandemic of infectious diseases caused by ecosystem changes due to the increase in average temperature on air transport	Short to Long	Large	<ul style="list-style-type: none"> Providing a Safe and Secure Air Transport Environment through Infectious Disease Control Development of flight plans based on passenger demand

Opportunities

Types of Opportunity	Opportunities	Period of Opportunities	Impact of Opportunities	Actions to Expand the Opportunities
Opportunities ✓ Resource efficiency ✓ Energy source ✓ Resilience ✓ Market ✓ Products and services	Aircraft Operated Improvements in flight operations, technical improvements in equipment. Reduction of fuel consumption by improving fuel efficiency and CO ₂ Reduction through improvement of infrastructure, including upgrading of air traffic control. (Reduction of Credit Purchase Costs)	Short to Long	Medium	<ul style="list-style-type: none"> CO₂ reduction of operational ingenuity and aircraft modification. Steady renewal of fuel-efficient equipment (Implementation of various types of financing, such as the implementation of specific use of funds transition-link loans, selection of new small aircraft, and acceleration of the introduction of fuel-efficient equipment) Cooperation with manufacturers, countries, and related organizations to improve air traffic control and introduce aircraft using new technology Request for support based on GX transition bonds
	SAF Stable supply of aircraft fuel and reduction of cost through diversification of fuel supply sources	Medium to Long	Medium to Large	<ul style="list-style-type: none"> Procurement of SAF consisting of multiple manufacturing methods All Japan SAF dissemination activities such as ACT FOR SKY Cooperation among the public and private sectors, including public and private sector councils for the promotion of SAF deployment, to resolve technical and economic issues in domestic SAF manufacturing, and supply side through GX transition bonds, support for business operation costs including SAF feedstock procurement, and incentive support
	Ground Vehicle CO ₂ reduction through the use of special airport vehicles combining various power sources, and labor-saving airport operations through the use of new technologies such as autonomous driving	Short to Medium	Small	<ul style="list-style-type: none"> Procurement of biodiesel fuel and use of special electric vehicles Promoting airport decarbonization through public-private partnerships
	Demand Enhancing preferences and expanding aviation demand through appropriate responses to diversifying customer needs	Short to Long	Medium	<ul style="list-style-type: none"> Providing low-carbon, environmentally-friendly products and services Expansion of information disclosure on measures to address climate change, including reduction of CO₂ emissions Building momentum by disseminating the progress of sustainable flights and SAF procurement in a planned manner, participating in symposiums, and strengthening the dissemination of environment-friendly measures
	Creation of new businesses based on the premise of low carbon Securing new revenue sources through (Nest Generation Air Mobility, Freighter Business with Ymato HD, LCC Business)	Short to Long	Large	<ul style="list-style-type: none"> Creating new businesses utilizing JAL Group assets Promotion of investment that contributes to reduction of CO₂ using internal carbon pricing (ICP)

(c) Risk management

The JAL Group positions as priority risks those risks that are assessed as particularly important in the semi-annual risk survey. The Group Risk Management Council, chaired by the President, confirms the status of risk management, and deliberates and decides on countermeasures.

With regards to environmental issues such as climate change and biodiversity, which are priority issues in our management strategy, we implement risk management through the PDCA cycle based on the EMS, while considering relevant laws, regulations, and policy trends in the international community.

(d) Indicators and Targets

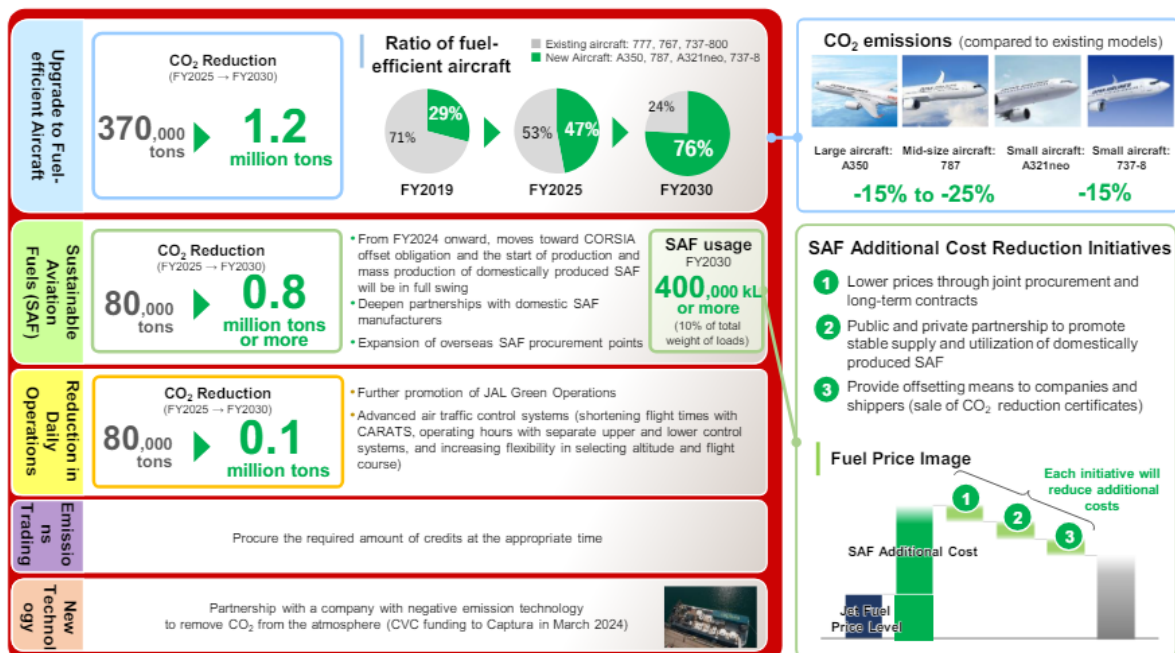

Due to the nature of the air transport business, direct emissions from aircraft account for about 99 percent of CO₂ emissions. Based on this fact, we will first address the reduction of CO₂ emissions from aircraft as our top priority, but we are also earnestly working to reduce CO₂ emissions from indirect emissions from ground facilities with similarly high targets.

We will continue to lead the industry in cutting-edge initiatives in line with the Japanese government's Clean Energy Strategy, while strengthening cooperation and collaboration with various stakeholders in Japan and abroad, in line with the international framework for reducing CO₂ emissions.

In May 2021, the JAL Group has set specific targets for 2030, a 10 percent reduction in total emissions from 2019 levels. We are the first Japanese airline to do so and have taken the lead in promoting decarbonization of the global aviation industry through joint procurement of SAF in alliances and the use of ESG finance when renewing aircraft. JAL will continue to accelerate our initiatives and boldly take on the challenge, such as the steady renewal of fuel-efficient aircraft based on a stable financial base, steady implementation of JAL Green Operations, and strategic procurement based on specific SAF loading targets.

Regarding SAF, while overseas manufacturing and supply chain construction activities are accelerating, it was clearly stated that SAF manufacturing and distribution will be promoted in Japan in the Basic Policy for Economic and Fiscal Management and Reform 2023, Grand Design and the Implementation Plan for New Capitalism, Clean Energy Strategy, and Basic Policy for Realizing GX. In order to realize its ambitious goal of replacing 10 percent of all installed fuel with SAF by 2030, the JAL Group will actively work toward commercializing SAF through public-private partnerships and cooperation with domestic and international stakeholders.

(3) Responding to Natural Capital (Biodiversity)

(a) Governance

The JAL Group has established the same governance structure for its biodiversity efforts as it has for addressing climate change; prior disclosures based on TNFD recommendations and the Commitment on Nature were reported and approved by the Board of Directors in August 2023.

(b) Strategy

The JAL Group follows the LEAP approach (Note 6) proposed by the TNFD, to identify natural dependencies and impacts as well as priority areas, to systematically assess nature-related risks and opportunities on a scientific basis.

We identified the dependence on and impact on nature in the Group's air transportation business. The dependence included operations to tourist destinations rich in nature, such as natural heritage sites and beach resorts and sales of local food products, while the impact included possible environmental pollution to airport-related business areas and concerns about the impact on the ecosystem during the SAF production process.

The JAL Group's water intake areas are mainly in Japan, where water stress levels are considered low, analyzed by using a water risk analysis tool provided by the World Resources Institute, and we recognize that its risks are low. We will continue our efforts to conserve water resources such as the recycling of water for washing aircraft parts, mainly in the metropolitan areas of Haneda and Narita where 80 percent of the total water amount is used. Additionally, the analysis will be reviewed annually.

JAL Group's destinations were matched with areas of significant biodiversity in WWF's Biodiversity Risk Filter, and it was found that many areas in Japan are at high biodiversity risk. Hokkaido, Kagoshima, namely Amami, and Okinawa, which have high demand for nature tourism, were identified as areas where our businesses are dependent on nature. Also, Tokyo was identified as an area with high priority for biodiversity conservation, where operations have an impact on nature because of the major airport.

The loss of biodiversity can be a significant risk to the continuance of our air transportation business and managing it can also lead to opportunities. The workshop also assessed nature-related risks and opportunities based on the identified dependencies and impacts, which are summarized in the table below. In the future, we will deepen the assessment of risks and opportunities by analyzing financial impacts as well.

(Note 6) LEAP is an acronym for the four phases of Locate, Evaluate, Assess, and Prepare. It is an information disclosure guidance that consists of Locate, which identifies the nature interface throughout the supply chain and identifies priority locations; Evaluate, which diagnoses the dependencies and impacts between the business activities and nature; Assess, which evaluates the key risks and opportunities based on the results of the diagnosis; and Prepare, which prepares a response to nature-related risks and opportunities and reports back to investors.

	Classification	Outline of Risks	Risk Mitigation Actions
Risks	Physical Risks ✓Acute risk ✓Chronic risk	Impact on air transportation operations by pandemic outbreaks of infectious diseases caused by the change of ecosystems.	<ul style="list-style-type: none"> Provide a "safe and secure" air transportation environment through measures to prevent infectious diseases. Develop flight plans based on passenger demand.
		Loss of natural tourism resources and reduced passenger volume due to changes in the ecosystem.	Promote efforts to restore natural tourism resources in cooperation with local communities.
	Transition Risks ✓Policy and Law ✓Market ✓Reputation	Ecological impacts in securing raw materials and manufacturing processes associated with the use of SAF.	Use of SAFs (such as ICAO CORSIA-eligible fuels) that take into account raw materials, land use and ecosystem conservation in the production areas, etc.
		Restrictions on foods and merchandise used due to more strict regulations on the use of wildlife to protect rare species.	<ul style="list-style-type: none"> Compliance with internal guidelines with reference to the IUCN Red List, etc. Use of food and merchandise produced with sustainability taken into account.
		Over tourism in nature-rich tourism destinations.	Realization of tourism based on sufficient management of human flows.
		Complicity in illegal wildlife trafficking.	Educate employees and collaborate with airport authorities to prevent illegal wildlife trafficking.
	Environmental contamination to the surroundings of the airport (e.g., if improper water treatment occurs).	Thorough prevention procedures and post occurrence response procedures.	
Opportunities	Classification	Outline of Opportunities	Actions to Expand the Opportunities
	Opportunities based on business performance ✓Products and services ✓Market ✓Reputation	Creating demand for nature tourism.	Balancing tourism and nature conservation by encouraging appropriate tourism through the training of tourism guides, etc.
		Creation of commercial distribution and logistics through the transportation of foods and merchandise that are products of a rich ecosystem.	Contribution to regional economic revitalization through high-speed fresh transportation of foods and merchandise.
	Sustainability Performance Opportunities ✓Protection, restoration and rehabilitation of ecosystems ✓Sustainable use of natural resources	Securing tourism resources through protection, restoration, and rehabilitation of ecosystem.	Implementation of measures such as the coral sexual reproduction project.
		Securing a stable supply of commercial materials.	Use of sustainable commercial products (e.g. certified commercial products) in collaboration with suppliers.

(c) Risk and Impact Management

The JAL Group manages the same risks and impacts for its biodiversity initiatives as it does for addressing climate change. With regards to environmental issues such as climate change and biodiversity, which are priority issues in our management strategy, we implement risk management through the PDCA cycle based on the EMS, while considering relevant laws, regulations, and policy trends in the international community.

(d) Indicators and Targets

The JAL Group recognizes that biodiversity is affected by various environmental issues, including climate change, resources, and environmental pollution, and commits to comprehensive solutions. In addition to targets related to biodiversity conservation, we disclose environmental data such as CO₂ emissions, waste, and water consumption.

Main topics	Subtopic	Metrics	FY25 Targets	
Biodiversity Conservation	Collaboration with external stakeholders to help expand the area of protected areas such as national parks and OECMs by 2030	Preservation and expansion of tourism resources	[Okinawa] Number of sexually reproduced corals grown	1,000 seedlings by 2026
	Use of certified commercial products		Percentage of in-flight items using certified paper	100%
	Prevention of illegal wildlife trade		Number of illegal wildlife transports	0
	Consideration for biodiversity in the foods and merchandise we handle		Number of violations of internal guidelines for ESG risk food ingredients and commercial products	0
	Reducing the impact on the ecosystems surrounding the airport		[Tokyo] Number of incidents of improper management of water containing hazardous substances	0

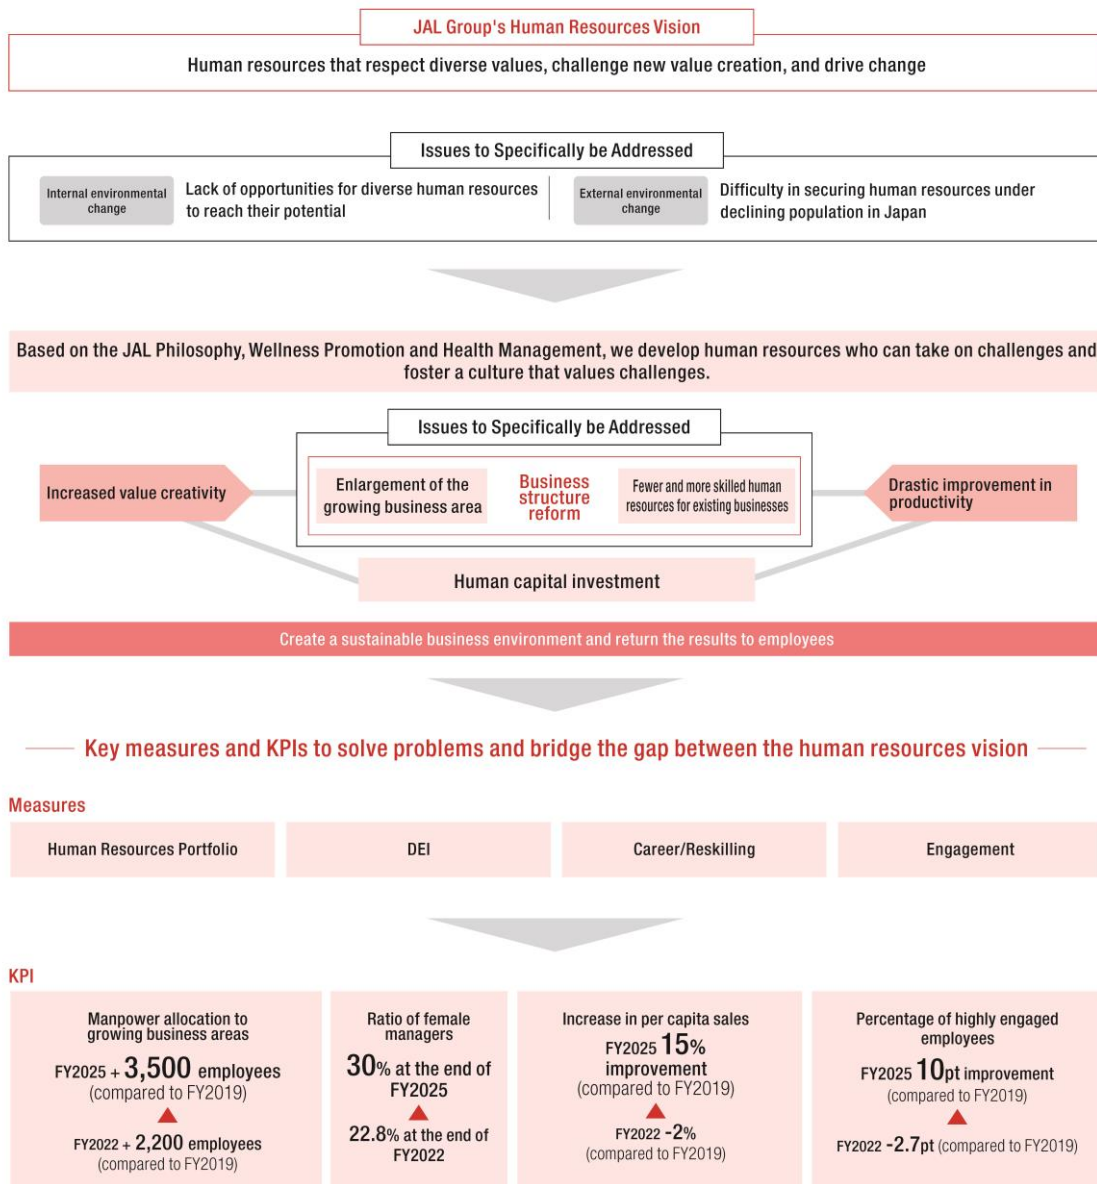

(4) Human Resource Initiatives

(a) Strategy

■ Overall Picture

The Rolling Plan 2023 positioned ESG strategy as the top strategy for realizing value creation and growth and positioned human resources strategy as one of the business strategies to promote ESG strategy.

In promoting our ESG strategy, we first clarified the JAL Group's human resources vision as human resources that respect diverse values, challenge new value creation, and drive change. Next, in the face of the rapidly changing environment, we recognized two particular issues that need to be addressed. Inside the JAL Group, there was a lack of opportunities for diverse human resources to reach their potential. Turning our attention to the outside world, we recognized that it will be difficult to secure human resources in the future with the decline in fertility rate and the aging population. In order to cope with this severe environmental change, we will actively invest in human resources in order to realize the improvement of value creativity and drastic improvement of productivity and accelerate business model reform. By doing so, we aim to create a virtuous cycle that leads to further value creation by improving corporate value and returning the results to each employee, who is our human capital.

■ Human Resource Development Policy

The roles of our employees are changing with the optimization of human resource portfolios due to the revisions in business structures and the rapid transitions in the social environment. To respond to these changes, we support career development in job autonomy and reskilling. We support our employees by implementing a job autonomous career development system, such as a human resource system for employees who want to nominate themselves to the department they wish to work in and a system where the employees can use their skills and abilities in an in-house second job system or provide DX education and reskilling for a second career for our employees to shape their own careers responsibly.

■ Internal Environmental Improvement Policy

We have established and are implementing the following three policies to improve our internal environment for the purpose of maximizing the use of human capital.

Formation of a New Human Capital Portfolio

In order to realize business model reform, we will acquire, nurture, assign and treat personnel with diverse knowledge and experience to support new business areas and personnel with high expertise in the aviation field to support existing business areas. We will expand the recruitment of experienced personnel, expand the scope of areas and positions covered by the performance-based remuneration system, and introduce a personnel wage system that applies to highly specialized personnel essential for safe operation, thereby placing personnel in optimal positions and build a new human resources portfolio for the JAL Group.

Promotion of DEI (Note 7)

In order to improve corporate value over the medium to long term and to enhance the sustainability of our business, we will transform from a company with highly homogeneous human resources to a highly diverse company with human resources with diverse knowledge and experience such as experience, sensitivity, values, and expertise.

We will deepen diversity and create new values by intergroup secondments, the active recruitment of foreign employees in Japan, and by expanding the employment of people with disabilities.

Increased engagement

In order to maximize the power of diverse human resources, which is the JAL Group's greatest strength, we will create a highly engaged work environment where each employee feels needed and rewarded.

We will improve employee engagement promoting organizational revitalization and health management by implementing various measures of our human resources strategy and JAL Philosophy. We will achieve a virtuous cycle of increasing engagement by increasing productivity and appropriately transferring the results to human capital investment.

(Note 7) DEI = Diversity Equity Inclusion

(b) Indicators and Targets

■ Actual results for FY2023

	category	KPI	Target (FY25)	Results (FY23)
Human Resource Development Policy	Transition to autonomous career development and support for reskilling	Increase in sales per capita	+15% (Compared to FY2019)	+16% (Compared to FY2019)
In-House	Formation of a new human capital portfolio	Allocation of human resources to growth areas	+3,500 (Compared to FY2019)	+2,990 (Compared to FY2019)
Environmental Improvement Policy	Promotion of DEI	proportion of women managers	30%	29.8%
	Increased engagement	Percentage of highly engaged employees (Note 8)	+10pt (Compared to FY2019)	△0.6pt (Compared to FY2019)

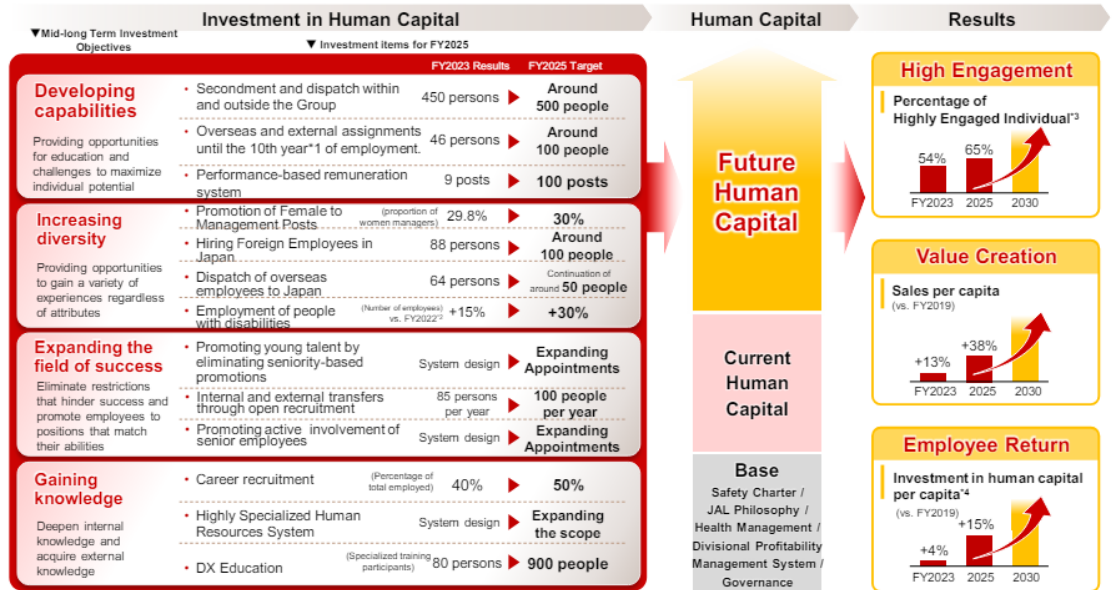

(Note 8) Percentage of employees who responded positively to the Employee Attitude Survey.

■ For the Future

In the JAL Group Medium Term Management Plan-Rolling Plan 2024 for Fiscal Years 2021 to 2025 announced in March 2024, we have summarized the concept of human capital management, which regards human resources as capital and maximizes their value in order to realize JAL Vision 2030, which is the ideal image of our group. Based on the idea that human capital is the driving force to enhance the sustainability of our business and to create social and economic value, we will create an environment in which diverse human resources can play an active role in various fields through continuous investment in human capital, based on the JAL Philosophy and health and productivity management. We will continue to build up the layers of human capital in the JAL Group each employee can showcase their skills and expertise.

As a result, we will provide benefits to our employees in proportion to their demonstrated abilities and pursue our medium- to long-term ideal of improving engagement and creating value.

Improve engagement and create value by realizing an environment in which diverse human resources can work in a variety of fields, providing rewards based on their abilities

*1: JAL business planning staff *2: As of June 1, 2022 *3: Percentage of employees who selected 4 or 5 out of 5 in the employee awareness survey *4: Per capita base salary + training expenses
